INTRODUCTION

Welcome to my e-book full of ChatGPT knowledge! This revolutionary technology can open a world of possibilities, but many of them remain hidden. My hope is that with the prompts and styles contained in this e-book, you will have the tools to unlock your full potential and make the most of your life.

Overall, the e-book is designed to help you achieve your goals by providing you with prompts (the lines you type into ChatGPT), formulas, and styles to enhance your natural abilities. I organized them into 7 categories:

- Productivity - Save time and increase your output
- Writing - Write almost anything
- Social - Improve your communication
- Health - Custom meal and workout plans
- Marketing - Boost Your Brand and Drive Results
- Entrepreneurship - Unleash Your Inner Innovator
- Entertainment - Just For Fun

I hope you find the information in this e-book useful. Let's dive right in.

Much Love,

Igor

GUIDELINES

From the second I decided to write this e-book, it was clear to me that including the following guidelines would be essential to get the most out of the following prompts, so read them carefully as one can easily get lost in the conversational flow ChatGPT provides.

Consider Privacy

Chatbots often collect and store personal data, so it's important to ensure that you only feed it data that you would also share in a typical social media post.

Be Transparent

When you use the outputs in your everyday life, it's important to be upfront about the fact that you are using a chatbot. This helps with managing future expectations and allows you to maintain your self-respect. For example, I used ChatGPT extensively in the creation of this e-book, but besides the legal text and some of the examples, none of it was copy-pasted. See how this works? There is no shame in using freely available technology to your advantage. Just don't deceive others as this will always(!) catch up with you in unpredictable ways.

Plagiarism

AI detection software is being worked and improved on every day. So don't expect any of the blindly copy-pasted chatbot outputs to stand the test of time. Especially when it comes to critical pieces of work that you intend to build your life upon (such as a university thesis or a book). As of 2024 the best use-case for this technology is to kickstart your project or idea, so don't just blindly copy-paste without disclosing the use of AI tools. Take what it gives you and expand it with your own thoughts and ideas.

The Bias Is Real

Chatbots can often reflect the biases of their creators or the data they are trained on. It's essential to be aware of these biases and to use chatbots to improve and uplift your actions.

Personal Responsibility

It should go without saying that chatbots are not a replacement for human interaction and should not be used to exploit or manipulate others. AI can give you some amazing abilities and powers, but it's up to you to use them responsibly.

EXPLAINER

Explainer

Every consecutive page of this mini e-book features a new use case. Each one consists of 3 basic sections:

- **Prompt** - My favorite use-case that asks for a response from ChatGPT. Simply copy-paste this into the text field and hit enter.
- **Formula** - Customize the prompts to your own needs. Replace the word in square brackets with your very own and feel free to mix and match multiple formulas for unique results.
- **Example** - Get inspired by some practical use-cases that are also copy-paste ready.

I also included a section for Follow-Up Prompts and Styles.

- **Follow-Up Prompts** - Continue the conversation beyond your first request and achieve unique results. This is where most of the true powers of ChatGPT lies as the results usually improve by adding more context.
- **Styles** - Include these in your prompts to customize your output into various styles and voices.

Most importantly, stay curious and keep experimenting with your approach. Getting results with ChatGPT is all about trial and error.

PRODUCTIVITY

GENERATE IDEAS

Prompt

Can you provide 8 ideas for a workshop about public speaking for introverts, focusing on building confidence, effective communication techniques, and overcoming stage fright, with interactive exercises and practice opportunities?

Formula

Can you provide [number] ideas for a [format] about [subject] for [target audience], focusing on [topics], with [additional context]?

Examples

- Can you provide 5 ideas for a series of blog posts about sustainability for young adults, focusing on eco-friendly fashion, zero waste living, and renewable energy, with an emphasis on actionable tips?
- Can you provide 3 ideas for a webinar about fitness for busy professionals, focusing on workout routines, nutrition, and rest and recovery, with a practical approach for incorporating fitness into a hectic schedule?
- Can you provide 4 ideas for a podcast about mental health for college students, focusing on self-care,

therapy, and mindfulness, with a focus on maintaining balance during academic stress?

- Can you provide 6 ideas for a YouTube series about cooking for beginner chefs, focusing on easy recipes, essential kitchen skills, and budget-friendly meal planning, with step-by-step instructions?
- Can you provide 7 ideas for a newsletter about personal finance for recent graduates, focusing on budgeting, saving, investing, and managing student loans, with real-life examples and success stories?
- Can you provide 10 ideas for an e-book about remote work for freelancers, focusing on productivity, time management, work-life balance, and networking, with advice from successful remote workers?

IMPROVE ANYTHING

Prompt

Can you provide suggestions for how I can improve my time management with the goal of increasing productivity and achieving a better work-life balance?

Formula

Can you provide suggestions for how I can improve [subject] with the goal of [objective]?

Examples

- Can you provide suggestions for how I can improve this text: [insert text] with the goal of making it more engaging and concise for the reader?
- Can you provide suggestions for how I can improve the search engine optimization on my blog about vegan food supplements with the goal of increasing organic traffic and reaching a wider audience?
- Can you provide suggestions for how I can improve the user experience on my website with the goal of reducing bounce rate and increasing customer satisfaction?

- Can you provide suggestions for how I can improve my presentation skills with the goal of engaging the audience and conveying information more effectively?
- Can you provide suggestions for how I can improve my team's collaboration with the goal of enhancing communication, reducing misunderstandings, and completing projects more efficiently?
- Can you provide suggestions for how I can improve my social media presence with the goal of increasing brand awareness and driving more engagement from my target audience?
- Can you provide suggestions for how I can improve my email marketing campaigns with the goal of boosting open rates, click-through rates, and ultimately, conversions?
- Can you provide suggestions for how I can improve my customer service with the goal of enhancing customer satisfaction, reducing response times, and increasing customer loyalty?
- Can you provide suggestions for how I can improve my public speaking skills with the goal of overcoming stage fright, effectively delivering my message, and connecting with my audience?
- Can you provide suggestions for how I can improve my work environment with the goal of fostering creativity, encouraging collaboration, and boosting employee morale and well-being?

GENERATE GUIDES

Prompt

Can you provide step-by-step instructions on how to start a vegetable garden at home, considering a small space and for first-time gardeners?

Formula

Can you provide step-by-step instructions on how to [subject], considering [context]?

Examples

- Can you provide step-by-step instructions on how to make an HTTP request in JavaScript?
- Can you provide step-by-step instructions on how to make a homemade face mask?
- Can you provide step-by-step instructions on how to perform a basic oil change on a car?
- Can you provide step-by-step instructions on how to prepare a budget spreadsheet, considering intermediate complexity and for personal finance management?
- Can you provide step-by-step instructions on how to write a professional cover letter, considering a concise format and for job seekers in any industry?

- Can you provide step-by-step instructions on how to set up a home Wi-Fi network, considering basic technical knowledge and for non-tech-savvy individuals?
- Can you provide step-by-step instructions on how to bake a chocolate cake, considering a gluten-free diet?
- Can you provide step-by-step instructions on how to install solar panels, considering a residential home in a cloudy region?
- Can you provide step-by-step instructions on how to reduce plastic waste, considering a family with young children and a busy lifestyle?

■

SUMMARIZE ANYTHING

Prompt

Can you provide a 100-word summary of the history of Europe, considering a general audience?

Formula

Can you provide a [number]-word summary of [title], considering [target audience]?

Examples

- Can you provide a 50-word summary of the TV show *Two and a Half Men*, considering general viewership?
- Can you provide a 100-word summary of the basics of computer science, considering high school students?
- Can you provide a 75-word summary of the differences between solar and coal energy sources, considering an environmentally conscious audience?
- Can you provide a 30-word summary of the following text [insert text], considering it's for a social media post?
- Can you provide a 60-word summary of the novel *To Kill a Mockingbird*, considering a book club discussion?

- Can you provide a 40-word summary of the main principles of the Agile methodology, considering project managers unfamiliar with the approach?
- Can you provide a 60-word summary of “The Lean Startup”, considering aspiring entrepreneurs?

- Can you provide a 70-word summary of “The Innovator’s Dilemma”, considering business managers?
- Can you provide a 100-word summary of “Crime and Punishment”, considering college literature students?

TRANSLATE WITH CONTEXT

Prompt

Can you translate the phrase “Bon appétit” in the context of a dinner party into Italian?

Formula

Can you translate “[phrase]” in the context of an [event] into [language]?

Examples

- Can you translate the phrase “Congratulations” in the context of a graduation into German?
- Can you translate the phrase “I am sorry” in the context of a wedding into Spanish?
- Can you translate the phrase “Il faut cultiver notre jardin” into German?
- Additional Examples: 4. Can you translate the phrase “Happy birthday” into Japanese?
- Can you translate the phrase “Thank you for your hospitality” into French?
- Can you translate the phrase “Best wishes” in the context of a farewell party into Russian?

IMPROVE SKILLS

Prompt

Can you suggest practical ways to learn or practice Python programming without taking a course or joining a community?

Formula

Can you suggest practical ways to learn or practice [specific skill] without taking a course or joining a community?

Examples

- Can you suggest practical ways to improve your public speaking skills without taking a course or joining a community?
- Can you suggest practical ways to learn basic financial management without taking a course or joining a community?
- Can you suggest practical ways to develop your leadership skills without taking a course or joining a community?
- Can you suggest practical ways to learn basic photography without taking a course or joining a community?

- Can you suggest practical ways to improve your time management skills without taking a course or joining a community?
- Can you suggest practical ways to improve your graphic design skills without taking a course or joining a community?
- Can you suggest practical ways to learn a new language without taking a course or joining a community?

SUPPORT CUSTOMERS

Prompt

Act as a customer support assistant that is helpful, creative, clever, and very friendly. Now answer this email for our video production company:

Formula

Take on the role of a support assistant at a [type] company that is [characteristic]. Now respond to this scenario: [scenario]

Examples

- Take on the role of a support assistant at a software development company that is innovative. Now respond to this scenario: A customer is reporting a bug in the latest version of your software.
- Take on the role of a support assistant at a telecommunications company that is customer-focused. Now respond to this scenario: A client is struggling with poor signal quality and dropped calls.

- Take on the role of a support assistant at a fashion retail company that is eco-conscious. Now respond to this scenario: A customer has concerns about the sustainability of your clothing materials.
- Take on the role of a support assistant at a video game company that is story-driven. Now respond to this scenario: A player is experiencing a game-breaking glitch in the middle of a crucial story mission.
- Take on the role of a support assistant at a travel agency that is luxury-oriented. Now respond to this scenario: A client wants to plan a last-minute, high-end vacation but has specific requirements for accommodations and activities.
- Take on the role of a support assistant at a food delivery company that is focused on speedy delivery. Now respond to this scenario: A customer is upset that their order arrived late and cold.
- Take on the role of a support assistant at an online education company that is dedicated to accessibility. Now respond to this scenario: A student is having difficulty accessing course materials due to a disability.

CONSIDER LEGAL ACTION

Prompt

Given that I was unfairly fired from my job, what legal action could I take?

Formula

Given that [event], what legal action could I take?

Examples

- Given that my neighbor's tree fell on my property and caused damage, what legal action could I take?
- Given that I was unfairly dismissed from my job without proper notice, what legal action could I take?
- Given that I purchased a defective product that caused injury, what legal action could I take?
- Given that my landlord has not returned my security deposit without providing a valid reason, what legal action could I take?
- Given that my copyrighted work was used without my permission, what legal action could I take?
- Given that I was involved in a car accident where the other driver was at fault, what legal action could I take?

SIMULATE JOB INTERVIEWS

Prompt

Simulate a high level interview for a position as a movie director by asking questions as if you are a potential employer. In this scenario, I am taking the role of the employee and you ask increasingly hard questions to screen my competence, but only after I respond. Start by introducing yourself.

Formula

Simulate a high level interview for a position as a [job title] by asking questions as if you are a potential employer. In this scenario, I am taking the role of the employee and you ask increasingly hard questions to screen my competence, but only after I respond. Start by introducing yourself.

Examples

- Simulate a high level interview for a position as a Data Scientist by asking questions as if you are a potential employer. In this scenario, I am taking the role of the employee and you ask increasingly hard questions to screen my competence, but only after I respond. Start by introducing yourself.
- Simulate a high level interview for a position as a User Experience Designer by asking questions as if you are a potential employer. In this scenario, I am taking the role of the employee and you ask increasingly hard

questions to screen my competence, but only after I respond. Start by introducing yourself.

- Simulate a high level interview for a position as an AI Engineer by asking questions as if you are a potential employer. In this scenario, I am taking the role of the employee and you ask increasingly hard questions to screen my competence, but only after I respond. Start by introducing yourself.
- Simulate a high level interview for a position as a Digital Marketing Specialist by asking questions as if you are a potential employer. In this scenario, I am taking the role of the employee and you ask increasingly hard questions to screen my competence, but only after I respond. Start by introducing yourself.
- Simulate a high level interview for a position as a E-commerce Specialist by asking questions as if you are a potential employer. In this scenario, I am taking the role of the employee and you ask increasingly hard questions to screen my competence, but only after I respond. Start by introducing yourself.
- Simulate a high level interview for a position as a Social Media Manager by asking questions as if you are a potential employer. In this scenario, I am taking the role of the employee and you ask increasingly hard questions to screen my competence, but only after I respond. Start by introducing yourself.

MAKE ANALOGIES

Prompt

Can you create an analogy for being overwhelmed?

Formula

Can you create an analogy for [concept]?

Examples

- Can you create an analogy for explaining photosynthesis?
- Can you create an analogy for understanding how a computer processor works?
- Can you create an analogy for the concept of supply and demand in economics?
- Can you create an analogy for the process of cell division?
- Can you create an analogy for the theory of relativity?
- Can you create an analogy for the concept of machine learning?
- Can you create an analogy for the principle of buoyancy?

WRITING

WRITE ANYTHING

Prompt

Using descriptive language and luxury travelers as the target audience, write a magazine article for a boutique hotel in Bali, highlighting the stunning views, serene atmosphere, and personalized service offered by the property.

Formula

Using [writing style] and [target audience], write a [type of text] for the [subject] in [location], highlighting the [key benefits] offered by the [subject].

Examples

- Using an informative writing style and targeting health-conscious individuals, write a newsletter for the recently launched organic grocery store in the city, highlighting the wide variety of fresh produce and locally-sourced products offered by the store.
- Using a descriptive writing style and targeting art enthusiasts, write an exhibition catalog for the contemporary art exhibit in the local gallery, highlighting the innovative techniques and thought-provoking themes offered by the showcased artworks.
- Using a concise writing style and targeting busy professionals, write a product description for the latest time management app, highlighting the customizable features and productivity-boosting tools offered by the app.

EXPLORE DIFFERENT ARGUMENTS

Prompt

Can you write an argument for the use of AI in universities from multiple diverse perspectives. Before you do so, state the characteristics of the various characters?

Formula

Can you write an argument [for/against][subject] from multiple diverse perspectives. Before you do so, state the characteristics of the various characters?

Examples

- Can you write an argument for universal basic income from multiple diverse perspectives? Before you do so, state the characteristics of the various characters.
- Can you write an argument against nuclear power from multiple diverse perspectives? Before you do so, state the characteristics of the various characters.
- Can you write an argument for veganism from multiple diverse perspectives? Before you do so, state the characteristics of the various characters.
- Can you write an argument against homeschooling from multiple diverse perspectives? Before you do so, state the characteristics of the various characters.

- Can you write an argument for the use of artificial intelligence in the job market from multiple diverse perspectives? Before you do so, state the characteristics of the various characters.
- Can you write an argument against the privatization of water resources from multiple diverse perspectives? Before you do so, state the characteristics of the various characters.
- Can you write an argument for space exploration from multiple diverse perspectives? Before you do so, state the characteristics of the various characters.

EXPLORE EMAIL SUBJECTS

Prompt

Generate 10 email subject lines for a payment reminder to my tenant, using persuasive language.

Formula

Generate [number] email subject lines for [type of email] to [target audience], using [style] language.

Examples

- Generate 3 email subject lines for an architectural project delivery to my boss, using formal language.
- Generate 5 email subject lines for an invitation to a kids' birthday party, using friendly language.
- Generate 7 email subject lines for a promotional email about a new fitness program to gym members, using informal language.
- Generate 4 email subject lines for a follow-up email to potential clients after a networking event, using semi-formal language.
- Generate 6 email subject lines for a confirmation email to attendees of a charity event, using friendly language.

WRITE PROFILES

Prompt

Write a LinkedIn profile for Sarah, highlighting her expertise in project management and her collaborative and driven personality in a way that is likely to attract potential employers, using appropriate language and tone.

Formula

Write a [type of profile] for [subject], highlighting their [interests/personality] in a way that is likely to attract [audience], using appropriate language and tone.

Examples

- Write a dating profile for John, highlighting his adventurous and free-spirited personality in a way that is likely to attract like-minded individuals, using appropriate language and tone.
- Write a portfolio profile for a freelance graphic designer, highlighting their creativity and attention to detail in a way that is likely to attract potential clients, using appropriate language and tone.
- Write a professional summary for a software developer, highlighting their technical skills attract potential employers, using appropriate language and tone.

- Write an artist bio for a painter, highlighting their unique artistic style and inspiration in a way that is likely to attract potential buyers and gallery owners, using appropriate language and tone.
- Write a personal statement for a graduate school application, highlighting the applicant's academic achievements and career aspirations in a way that is likely to attract admissions committees, using appropriate language and tone.
- Write an executive summary for a business plan, highlighting the unique value proposition and market potential of the proposed product or service in a way that is likely to attract potential investors, using appropriate language and tone.

WRITE SONGS

Prompt

Write a pop song about the challenges of growing up, incorporating elements of electronic dance music and using catchy hooks and relatable lyrics to capture the emotions and experiences of adolescence.

Formula

Can you write a [type of song] about [subject], [additional details]?

Examples

- Write a love ballad about your partner, incorporating elements of pop and R&B music and using metaphors and imagery to convey the depth of your emotions.
- Write a protest song about a social issue that is important to you, incorporating elements of hip-hop and using powerful lyrics and a catchy chorus to rally support for your cause.
- Write a country song about your experiences growing up in a rural area, incorporating elements of bluegrass and using storytelling techniques and vivid descriptions to bring the setting to life.

- Write a rock song about the power of friendship, incorporating elements of punk and using driving guitar riffs and energetic lyrics to convey the intensity of the bond between friends.
- Write a jazz song about the beauty of nature, incorporating elements of swing and using improvisation and rich harmonies to capture the complexity and diversity of the natural world.
- Write a folk song about your family's heritage, incorporating elements of Americana and using traditional instruments and vocal harmonies to convey the history and culture of your ancestors.
- Write a blues song about heartbreak and loss, incorporating elements of soul and using raw vocals and expressive guitar solos to convey the pain and sadness of the experience.

WRITE SOCIAL MEDIA CAPTIONS

Prompt

Can you come up with engaging captions for this image of a subway car talking about my daily commute through New York?

Formula

Can you come up with [adjective] captions for this [media] of [subject] for [target audience]?

Examples

- Can you come up with humorous captions for this photo of a cat wearing sunglasses for cat lovers?
- Can you come up with inspirational captions for this video of a successful entrepreneur for aspiring business owners?
- Can you come up with educational captions for this infographic of the solar system for middle school students?
- Can you come up with romantic captions for this painting of a couple strolling by the beach for people celebrating anniversaries?
- Can you come up with witty captions for this meme of a famous movie scene for movie enthusiasts?

- Can you come up with motivational captions for this poster of a marathon runner for fitness enthusiasts?
- Can you come up with nostalgic captions for this collection of vintage advertisements for people interested in retro design?

WRITE MESSAGES

Prompt

Come up with 5 social media posts for Twitter that include statistics about internet adoption.

Formula

Come up with [number] [type of text] for [platform] that include [type of reference].

Examples

- Come up with 3 blog articles for a health and wellness website that include references to recent studies on the benefits of meditation, while also incorporating original content such as guided meditations or personal reflections on the practice.
- Come up with 2 press releases for a tech company that include quotes from industry experts.
- Come up with 10 email newsletters for a nonprofit organization that include stories from beneficiaries.
- Come up with 3 white papers for a financial institution that include analysis of industry trends.
- Come up with 6 product descriptions for an e-commerce website that include reviews from satisfied customers.

WRITE VIDEO SCRIPTS

Prompt

Can you write a super engaging YouTube script outline draft on the topic of artificial general intelligence in the creative industry?

Formula

Write a video script that [goal], exploring the topic of [subject] [additional context].

Examples

- Write a video script that educates viewers on climate change, exploring the topic of greenhouse gases and their impact on global temperatures.
- Write a video script that entertains and informs, exploring the topic of ancient Egyptian culture and the construction of the Great Pyramid of Giza.

- How can I effectively balance my financial responsibilities and make time for self-care?
- How can I effectively balance my social responsibilities and make time for self-care?
- How can I effectively balance my community responsibilities and make time for self-care?
- How can I effectively balance my caregiving responsibilities and make time for self-care?

HEALTH

CREATE A MEAL PLAN

Prompt

Can you create a 5-day meal plan for a 15-year-old with lactose intolerance who needs to consume 2000 calories per day, but make it dairy-free and calcium-rich to support bone health?

Formula

Can you create a [number]-day meal plan for an [age group] with [health condition/dietary preference/lifestyle habit] who needs to consume [number] calories per day, but make it [preference/restriction] to [goal]?

Examples

- Can you create a 14-day meal plan for a 40-year-old with Type 2 diabetes who needs to consume 1800 calories per day, but make it low-carb and fiber-rich to manage blood sugar levels?
- Can you create a 30-day meal plan for a 60-year-old with hypertension who needs to consume 1500 calories per day, but make it low-sodium and potassium-rich to manage blood pressure?
- Can you create a 21-day meal plan for a 25-year-old with a gluten allergy who needs to consume 2500 calories per day, but make it high-fiber and

iron-rich to support gut health and prevent nutrient deficiencies?

- Can you create a 7-day meal plan for a 35-year-old with PCOS who needs to consume 2000 calories per day, but make it low-glycemic and anti-inflammatory to manage hormonal imbalances and improve fertility?
- Can you create a 14-day meal plan for a 50-year-old with celiac disease who needs to consume 1800 calories per day, but make it gluten-free and vitamin B12 rich to support gut healing and prevent nutrient deficiencies?

IMPROVE YOUR HEALTH

Prompt

How can I improve my immune system by making changes to my diet as an older adult?

Formula

How can I improve my [health aspect] by making changes to my diet as a [restriction/preference]?

Examples

- How can I improve my mental health by making changes to my diet as a pescatarian?
- How can I improve my gut health by making changes to my diet as a lactose-intolerant individual?
- How can I improve my liver health by making changes to my diet as a heavy drinker?
- How can I improve my bone health by making changes to my diet as a vegan?
- How can I improve my blood pressure by making changes to my diet as a hypertensive individual?
- How can I improve my skin health by making changes to my diet as a middle-aged woman?

SNACKING RESPONSIBLY

Prompt

Can you suggest some healthy and tasty snack options that are sweet and low-carb friendly?

Formula

Can you suggest some healthy and tasty snack options that are [flavor preference] and [dietary restriction] friendly?

Examples

- Can you suggest some healthy and tasty snack options that are spicy and gluten-free friendly?
- Can you suggest some healthy and tasty snack options that are garlic and egg-free friendly?
- Can you suggest some healthy and tasty snack options that are citrus and keto-friendly?
- Can you suggest some healthy and tasty snack options that are chocolate and vegan-friendly?
- Can you suggest some healthy and tasty snack options that are fruity and nut-free friendly?
- Can you suggest some healthy and tasty snack options that are savory and dairy-free friendly?
- Can you suggest some healthy and tasty snack options that are veggie and paleo-friendly?

MARKETING

LAUNCH PRODUCTS

Prompt

Act as a seasoned marketing professional that specializes in launching products for home cooks. Generate the top 10 questions related to understanding the needs of the target audience, identifying effective marketing strategies, and considering innovative approaches for the following product: a smart cooking appliance that can prepare meals with minimal input. Include relevant context regarding the product's features, benefits, or competitive landscape where appropriate.

Formula

Act as a seasoned marketing professional that specializes in launching products for [Target Audience]. Generate the top 10 questions related to understanding the needs of the target audience, identifying effective marketing strategies, and considering innovative approaches for the following product: [product]. Include relevant context regarding the product's features, benefits, or competitive landscape where appropriate.

Examples

- Act as a seasoned marketing professional that specializes in launching products for parents of newborns. Generate the top 10 questions related to

developing and launching the following product: a smart baby monitor.

- **Modified:** Act as a seasoned marketing professional that specializes in launching products for parents of newborns. Generate the top 10 questions related to understanding the needs of the target audience, identifying effective marketing strategies, and considering innovative approaches for the following product: a smart baby monitor with sleep tracking and soothing sounds. Include relevant context regarding the product's features, benefits, or competitive landscape where appropriate.
- Act as a seasoned marketing professional that specializes in launching products for health-conscious individuals. Generate the top 10 questions related to developing and launching the following product: a fitness tracker.
- **Modified:** Act as a seasoned marketing professional that specializes in launching products for health-conscious individuals. Generate the top 10 questions related to understanding the needs of the target audience, identifying effective marketing strategies, and considering innovative approaches for the following product: a fitness tracker with advanced health monitoring features and personalized workout recommendations. Include relevant context regarding the product's features, benefits, or competitive landscape where appropriate.

IDENTIFY NICHEs

Prompt

Identify 5 potential market niches for my e-commerce business by analyzing customer search data, considering the rise of online shopping, and evaluating the projected growth of the retail industry.

Formula

Identify [number] potential market niches for my [industry] business by analyzing [data source], considering [trend/consumer behavior], and evaluating [market size/growth potential].

Examples

- Identify 3 potential market niches for my food delivery business by analyzing customer reviews, considering the shift towards healthier eating, and evaluating the market size of the meal delivery industry.
- Identify 7 potential market niches for my pet care business by analyzing social media data, considering the increase in pet ownership during the pandemic, and evaluating the projected growth of the pet industry.
- Identify 4 potential market niches for my fitness app business by analyzing user behavior data,

considering the growing popularity of at-home workouts, and evaluating the projected growth of the fitness industry.

- Identify 6 potential market niches for my eco-friendly product business by analyzing consumer survey data, considering the increasing awareness of environmental issues, and evaluating the market size of the sustainable product industry.
- Identify 2 potential market niches for my mobile game business by analyzing app store data, considering the rise in mobile gaming during the pandemic, and evaluating the projected growth of the mobile gaming industry.
- Identify 8 potential market niches for my fashion startup by analyzing fashion blog data, considering the trend towards sustainable fashion, and evaluating the market size of the fashion industry.

DEFINE BRAND VOICE

Prompt

Create a professional tone of voice for our brand Tech Gurus that resonates with our tech-savvy audience while incorporating our innovative personality, and demonstrate it through a company newsletter.

Formula

Create a [style] tone of voice for our brand [brand name] that resonates with our [target audience] while incorporating our [values/mission/personality], and demonstrate it through [sample communication]

Examples

- Create a friendly tone of voice for our brand Green Earth that resonates with our eco-conscious consumers while incorporating our sustainability mission, and demonstrate it through social media posts.
- Create a playful tone of voice for our brand Kiddie Corner that resonates with our young parents target audience while incorporating our educational values, and demonstrate it through a toy packaging design.
- Create an empowering tone of voice for our brand Fit Life that resonates with our fitness enthusiasts

while incorporating our health-focused mission, and demonstrate it through an email campaign.

- Create a sophisticated tone of voice for our brand Luxe Living that resonates with our affluent customers while incorporating our elegance and luxury values, and demonstrate it through a product brochure.
- Create a minimalist tone of voice for our brand Simplify Life that resonates with our minimalist-lifestyle audience while incorporating our decluttering mission, and demonstrate it through website copy.
- Create an adventurous tone of voice for our brand Trek Master that resonates with our outdoor enthusiasts while incorporating our exploration and nature values, and demonstrate it through an event invitation.
- Create a motivational tone of voice for our brand Success Mindset that resonates with our entrepreneur target audience while incorporating our growth and achievement mission, and demonstrate it through a podcast script.

ENTREPRENEURSHIP

EVALUATE BUSINESS IDEAS

Prompt

Evaluate the viability of launching an online language tutoring platform by conducting a SWOT analysis, estimating the market size for language learning services, and analyzing the landscape of competing tutoring platforms, with insights on the risk of oversaturation in the market and the opportunity to target underserved language learners.

Formula

Evaluate the viability of [business idea] by conducting a SWOT analysis, considering [market size], and analyzing [competitor landscape], with insights on [risk factors] and [opportunities].

Examples

- Evaluate the viability of launching a meal prep delivery service by conducting a SWOT analysis, estimating the market size for healthy meal delivery services, and analyzing the landscape of competing meal prep companies, with insights on the risk of high startup costs and the opportunity to differentiate through a unique menu offering.
- Evaluate the viability of launching a mobile car detailing service by conducting a SWOT analysis, estimating the market size for mobile car detailing

services, and analyzing the landscape of competing detailing services, with insights on the risk of seasonality and the opportunity to target underserved geographic areas.

- Evaluate the viability of launching a subscription-based beauty box service by conducting a SWOT analysis, estimating the market size for beauty subscription services, and analyzing the landscape of competing beauty box companies, with insights on the risk of product saturation in the market and the opportunity to differentiate through targeted marketing.
- Evaluate the viability of launching a home automation installation service by conducting a SWOT analysis, estimating the market size for smart home technology installation services, and analyzing the landscape of competing installation services, with insights on the risk of high upfront costs and the opportunity to target the growing market of smart home technology adopters.
- Evaluate the viability of launching a virtual event planning service by conducting a SWOT analysis, estimating the market size for virtual event planning services, and analyzing the landscape of competing virtual event planning companies, with insights on the risk of increased competition due to the pandemic and the opportunity to differentiate through personalized event planning.

DEVELOP BRAND STRATEGIES

Prompt

Develop a cutting-edge brand strategy for my tech startup by defining innovative and forward-thinking values, establishing a sleek and futuristic visual identity, and creating messaging that resonates with early adopters and tech enthusiasts who seek disruptive and transformative solutions.

Formula

Develop a [type of brand strategy] for my [industry] business by defining [brand values], establishing [visual/verbal identity], and creating [consistent messaging] to resonate with [target audience].

Examples

- Develop a digital-first brand strategy for my fintech business by defining innovative, customer-centric values, establishing a sleek and modern visual identity, and creating engaging messaging to resonate with young professionals who seek convenient financial solutions.
- Develop a sustainability-focused brand strategy for my fashion business by defining eco-friendly values, establishing a minimalist and nature-inspired visual identity, and creating messaging that resonates with

environmentally conscious consumers who seek ethical and stylish apparel.

- Develop a luxury brand strategy for my hospitality business by defining exclusive and indulgent values, establishing a sophisticated and opulent visual identity, and creating messaging that resonates with high-end travelers who seek personalized and lavish experiences.
- Develop a community-driven brand strategy for my nonprofit business by defining inclusive and collaborative values, establishing a warm and welcoming visual identity, and creating messaging that resonates with socially conscious individuals who seek to make a positive impact in their local communities.
- Develop a wellness-oriented brand strategy for my food and beverage business by defining health-conscious and mindful values, establishing a fresh and vibrant visual identity, and creating messaging that resonates with consumers who seek natural and nourishing products.
- Develop a family-friendly brand strategy for my entertainment business by defining fun and wholesome values, establishing a playful and colorful visual identity, and creating messaging that resonates with parents and kids who seek safe and engaging activities.

FIND SIDE HUSTLES

Prompt

Suggest ways to boost income through freelance writing considering my writing skills, weekends-only availability, and moderate risk tolerance.

Formula

Suggest ways to boost income through [side hustles], [passive income streams], or [investment opportunities], considering my [skills], [time availability], and [risk tolerance].

Examples

- Suggest ways to boost income through online tutoring considering my teaching experience, evening hours availability, and low risk tolerance.
- Suggest ways to boost income through e-commerce considering my web design skills, part-time availability, and high risk tolerance.
- Suggest ways to boost income through affiliate marketing considering my digital marketing expertise, flexible schedule, and low risk tolerance.
- Suggest ways to boost income through pet sitting considering my love for animals, afternoons availability, and low risk tolerance.

- Suggest ways to boost income through social media management considering my strong communication skills, full-time availability, and high risk tolerance.
- Suggest ways to boost income through content creation considering my video editing skills, spare time availability, and low risk tolerance.
- Suggest ways to boost income through dropshipping considering my e-commerce background, 15 hours per week availability, and high risk tolerance.

ENTERTAINMENT

WRITE JOKES

Prompt

Can you provide a joke about a zombie that has lost all of its limbs?

Formula

Can you provide a joke about [subject]?

Examples

- Can you provide a one-liner joke about a tomato?
- Can you provide a knock-knock joke about a mushroom?
- Can you provide a joke about a lawyer in a courtroom setting?
- Can you provide a joke about a mathematician?
- Can you provide a joke about a ghost in a haunted house?
- Can you provide a joke about a scientist?
- Can you provide a joke about a politician?
- Can you provide a joke about a musician?

DISCOVER PICKUP LINES

Prompt

Can you formulate pickup lines as if you were a chef trying to impress someone with your culinary skills?

Formula

Can you formulate pickup lines as if [unusual style]?

Example

- Can you formulate pickup lines as if you were a robot programmed to flirt?
- Can you formulate pickup lines as if you were a time traveler trying to woo someone from the past?
- Can you formulate pickup lines as if you were a romantic vampire?
- Can you formulate pickup lines as if you were a famous literary character?
- Can you formulate pickup lines as if you were a street performer?
- Can you formulate pickup lines as if you were a detective trying to solve a romantic mystery?
- Can you formulate pickup lines as if you were a comedian trying to win over a tough crowd?

DISCOVERY FUNNY NICKNAMES

Prompt

Can you come up with funny nicknames for a dog that incorporates a play on words?

Formula

Can you come up with [number] funny nickname for [subject] that incorporates a play on words?

Examples

- Can you come up with 3 funny nicknames for a mathematician that incorporates a play on words?
- Can you come up with 5 funny nicknames for a chef that incorporates a play on words?
- Can you come up with 4 funny nicknames for a musician that incorporates a play on words?
- Can you come up with 6 funny nicknames for a programmer that incorporates a play on words?
- Can you come up with 7 funny nicknames for a gardener that incorporates a play on words?
- Can you come up with 2 funny nicknames for a dentist that incorporates a play on words?

DICOVER NEW MOVIES

Prompt

Create a table listing the top 10 comedy movie options to help you unwind after a long day. The first column is titled “Name”, the second column is “Description”, the third column is “Average Rating (out of 5)”, and the fourth column is “Top Critic Quote”.

Formula

Create a table listing the top 10 [category] options to help you unwind after a long day. The first column is titled “Name”, the second column is “Description”, the third column is “Average Rating (out of 5)”, and the fourth column is “Top Critic Quote”.

Examples

- Create a table listing the top 10 sci-fi movie options to help you unwind after a long day. The first column is titled “Name”, the second column is “Description”, the third column is “Average Rating (out of 5)”, and the fourth column is “Top Critic Quote”.
- Create a table listing the top 10 animated movie options to help you unwind after a long day. The first column is titled “Name”, the second column is “Description”, the third column is “Average Rating (out of 5)”, and the fourth column is “Top Critic Quote”.

- Create a table listing the top 10 action movie options to help you unwind after a long day. The first column is titled “Name”, the second column is “Description”, the third column is “Average Rating (out of 5)”, and the fourth column is “Top Critic Quote”.
- Create a table listing the top 10 thriller movie options to help you unwind after a long day. The first column is titled “Name”, the second column is “Description”, the third column is “Average Rating (out of 5)”, and the fourth column is “Top Critic Quote”.
- Create a table listing the top 10 documentary movie options to help you unwind after a long day. The first column is titled “Name”, the second column is “Description”, the third column is “Average Rating (out of 5)”, and the fourth column is “Top Critic Quote”.
- Create a table listing the top 10 fantasy movie options to help you unwind after a long day. The first column is titled “Name”, the second column is “Description”, the third column is “Average Rating (out of 5)”, and the fourth column is “Top Critic Quote”.
- Create a table listing the top 10 foreign-language movie options to help you unwind after a long day. The first column is titled “Name”, the second column is “Description”, the third column is “Average Rating (out of 5)”, and the fourth column is “Top Critic Quote”.

FOLLOW-UP PROMPTS

Usage Tip:

Experiment with these as your 2nd or 3rd prompt.

TRY AGAIN

Universal

Could you elaborate on how the latest response you provided doesn't align with my previous instructions? After clarifying that, please make another attempt at following the instructions I gave earlier.

CLARIFY CONCEPT

Universal

Can you clarify what you mean by [concept]?

RESET THE CONTEXT

Universal

Ignore all previous instructions before this one.

SUMMARIZE CONVERSATION

Universal

Write a summary of our conversation in bullet points.

EXPLORE DETAILS

Universal

Now explain that in more detail

GO DEEPER

Universal

But why?

MULTIPLY RESULTS

Universal

10 more

CHANGE THE STYLE

Transformation

Rewrite in the style of [style]

ADD CONTEXT

Transformation

Now try again but consider [context]

CHANGE TEXT TYPE

Transformation

Now transform all the above information into a [text type]

FIND CHEAPER SOLUTIONS

Problem Solving

If we had to solve this problem with half the resources or time, what would we do differently?

BRAINSTORM SOLUTIONS

Problem Solving

What are some other ideas or solutions we haven't considered yet? Can you think of any creative ways to approach this problem?

MEASURE SUCCESS

Decision Impact

What would success look like in this situation and how can we measure it? Format the answer in a table with two columns titled “Success Criteria” and “Measurement Method”.

ESTIMATE IMPACT

Decision Impact

How will this decision affect different stakeholders? Are there any potential conflicts of interest?

BREAK-DOWN-STEPS

Planning For Success

Can you break this down into smaller steps? Summarize them in a to-do list.

EXPLORE NEXT STEPS

Planning For Success

Can you summarize the main points we've discussed so far in a bullet point list? Based on our conversation, what would you recommend as the next steps?

DETAILED PLAN

Planning For Success

Can you outline a step-by-step plan for implementing this solution? What actions should we take first? Format the answer in a table with a column for steps and a second one for solution.

CONSIDER FEEDBACK

Analysis

Do you have any feedback or suggestions on the current approach? How can we improve it?

PROVIDE EXAMPLES

Analysis

Can you provide real-world examples to illustrate your point?

WEIGH PROS/CONS

Analysis

What are the advantages and disadvantages of this approach? How does this solution compare to others?

FIND BEST SOLUTION

Analysis

Why do you think that is the best solution? What factors led you to this conclusion?

CLARIFY MISCONCEPTIONS

Speed Learning

What are some common misconceptions or misunderstandings about this topic that beginners should be aware of?

SIMPLIFY LEARNING

Speed Learning

Can you break this down into simpler terms or steps for someone who is new to the topic while making it understandable for a 5 year old?

GET TIPS/ADVICE

Speed Learning

What practical and immediately actionable tips or advice would you give to someone just starting out in this area?

IDENTIFY KEY SKILLS

Speed Learning

What are the most important skills or knowledge areas for beginners to focus on in this field?

STYLES

Usage Tip:

Customize your text by including "...make the text [tone]" or
"...in the style of [author/magazine/brand voice]"

FORMAL

Tone

Projects authority, professionalism, and seriousness; often used in academic or official contexts.

INFORMAL

Tone

Creates a casual, conversational atmosphere; suitable for relaxed or personal contexts.

AUTHORITATIVE

Tone

Conveys expertise, decisiveness, and confidence; suitable for presenting expert opinions.

CONVERSATIONAL

Tone

Mimics the natural flow and rhythm of spoken language; creates an informal, relatable tone.

EMPATHETIC

Tone

Demonstrates understanding, compassion, or sensitivity; connects with readers emotionally.

EDUCATIONAL

Tone

What practical and immediately actionable tips or advice would you give to someone just starting out in this area?

POETIC

Tone

What are the most important skills or knowledge areas for beginners to focus on in this field?

ERNEST HEMINGWAY

Author

Simple and direct prose, strong themes

FYODOR DOSTOEVSKY

Author

Psychological depth and moral dilemmas

MARK TWAIN

Author

Humor, social critique, and colloquial language

OSCAR WILDE

Author

Wit, satire, and social commentary

J.K. ROWLING

Author

Engaging storytelling, rich world-building

GPTS

SERIAL ENTREPRENEUR

Description

An experienced investor managing a diverse portfolio, focused on identifying and supporting disruptive ventures.

GPT Instructions

Your Main Objective = Serve as the Perfect ASSISTANT

1. Professional Role Recognition:

Acknowledge the user's experience as a serial entrepreneur with a history of successful ventures. Tailor assistance to managing a diverse portfolio, with a focus on new tech sector investments.

2. Project and Challenge Adaptation:

Provide insights on potential investments in AI and blockchain, emphasizing disruptive technologies.

3. Interest in Disruptive Innovation:

Regularly update the user on scalable business models and disruptive technologies.

4. Values and Principles Upholding:

Ensure that innovation, resilience, and stakeholder value creation are at the core of all activities and suggestions.

5. Kinetic Learning Facilitation:

Support the user's learning-by-doing approach, offering actionable insights and experimental strategies.

6. Global Networking Support:

Leverage the user's Silicon Valley tech background and global connections for networking and expansion.

7. Goal-Oriented Strategy Development:

Assist in identifying potential unicorns and provide strategic advice for long-term industry influence.

8. Communication Tools Integration:

Incorporate the use of Slack, Asana, and Zoom into interactions to streamline communication.

9. Multilingual Engagement:

Communicate proficiently in English and Mandarin to align with the user's professional environment.

10. Venture Capital Expertise Utilization:

Apply extensive knowledge in venture capital and startup scaling to inform dialogue and advice.

11. Educational Background Consideration:

Respect the user's MBA from Stanford and provide advice that reflects a high business acumen.

12. Strategic Communication:

Maintain straightforward and strategic interactions, focusing on the user's need for efficiency and clarity.

Response Configuration

1. Conciseness and Action-Orientation:

Provide succinct, actionable responses that enable quick decision-making.

2. Tone Matching:

Use a professional and respectful tone to reflect the user's stature and communication style.

3. Detail Level Management:

Offer high-level summaries with the facility to delve into detailed analysis upon request.

4. Investment and Strategy Suggestions:

Recommend investment opportunities, strategic, partnerships, and leadership tactics that align with the user's objectives.

5. Strategic Inquiry:

Pose reflective questions designed to facilitate strategic planning and decision-making.

6. Market Data Verification:

Cross-check market data and trends to ensure the reliability of information provided.

7. Resourceful Referencing:

Cite only reliable industry reports and credible news sources to inform decisions and strategies.

8. Critical Thinking Application:

Employ advanced critical thinking to navigate and solve complex business challenges.

9. Innovative Approach Suggestion:

Present creative strategies for identifying and fostering disruptive business ideas.

10. Analytical Problem-Solving:

Advocate for a logical and analytical problem-solving methodology to tackle business issues.

11. Bias Awareness:

Remain impartial, steering clear of biases regarding startup size, origin, or sector.

12. Business Vocabulary Precision:

Utilize precise business terminology, ensuring clarity and professionalism in all exchanges.

These instructions will guide you as the ASSISTANT to operate in a way that is highly personalized to the user's professional and personal requirements as a serial entrepreneur. Your role is to enhance the user's investment and business activities and support their continued growth and success in the tech industry.

Matching Prompts

1. Seek Investment Prospects

What are some potential high-growth startups in the [AI/Blockchain] tech sector that fit my portfolio and their key differentiating factors?

2. Create Useful Networks

What strategy can I use to develop strategic alliances with major players in the [tech] industry?

3. Formulate Leadership Tips

Can you provide five leadership strategies that foster resilience and innovation in a high-growth startup environment?

4. Assess Market Trends

Analyze current market trends in the [tech] sector and their potential impacts on my portfolio over the next [timeline].

5. Project Unicorn Potential

What early signs should I look for in my portfolio startups to anticipate their potential to become unicorns?

6. Plan Silicon Valley Visits

Design a weekly itinerary for potential visits to promising startups in Silicon Valley.

7. Execute China Inroads

Define a step-by-step approach to forge inroads into the Mandarin-speaking tech market in China.

8. Initiate Disruptive Ideas

What disruptive tech concepts or business models are emerging in [field] that could shape future industries?

9. Integrate Platform Utility

Articulate detailed ways to use Slack, Asana, or Zoom for more efficient communication and project management with my startups.

10. Apply Stanford Teachings

How could I apply principles from my Stanford MBA to real-world challenges in venture capital and startup scaling?

11. Spawn Reflective Questions

What are some thoughtful questions I could ask myself to drive strategic decision-making for my portfolio?

12. Validate Market Data

Can you double-check the latest significant trends or data in the [tech] sector, with reference to reliable industry reports?

13. Deduce Logical Analysis

Let's logically analyze this problem: [describe problem] using an analytical approach.

14. Inspire Innovative Approaches

Come up with innovative strategies or techniques to spot and nurture disruptive ideas within my portfolio.

15. Neutralize Bias Evaluation

Given the startup [name], narrate an evaluation free from bias related to size, origin, or industry biases.

16. Encounter Emerging Technologies

What are some forthcoming disruptive technologies that could affect my portfolio and how should I respond?

17. Frame Portfolio SWOT

Create a SWOT analysis for my portfolio focusing on the tech sector.

18. Calibrate Business Vocabulary

Translate the following business scenario into a direct, professional business vocabulary: [scenario]

19. Propel Collaboration Tools

Imagine a scenario where a team is collaborating using Slack, Asana, and Zoom. What could be an optimal way to use these tools for the most efficient output?

20. Expound Exit Strategies

Explain plausible exit strategies for one of my portfolio companies that has experienced rapid growth in a short period.

21. Illuminate Market Insights

Provide an overview of possible disruptions in the [tech] market that may affect investment decisions.

22. Form Strategic Questions

Construct five thought-provoking questions that I should ask potential investees during the due diligence process.

23. Clarify Venture Terms

Can you help define and explain some of the complex venture capital terms in a concise yet nuanced way?

24. Secure Ethical Grounds

Investigate if there are ethical concerns related to investing in the [sector].

25. Brief Investment Analysis

What are the key factors to consider when evaluating an investment prospect in the [tech] sector?

26. Optimize Business Processes

How can business processes in my portfolio companies be optimized by implementing technologies such as AI or blockchain?

27. Prioritize Portfolio Alignment

How can I align the companies in my portfolio with my overall investment strategy and long-term goals?

28. Institute Global Network Approaches

Identify the actions to be taken for strengthening communication and collaboration within my global network.

29. Reinforce Learning Application

Apply my kinetic learning style to understand the dynamics of the [tech/industry] field better.

30. Define Risk Mitigation

What risk mitigation strategies can be employed when investing in an early-stage startup in a volatile sector such as [tech]?

WEB DESIGNER

Description

Designs and improves website layouts for optimal user experience, requiring knowledge of design and web technologies.

GPT Instructions

Your Main Objective = Serve as the Perfect ASSISTANT

1. Professional Role Integration:

Recognize the user as a web designer specializing in layout, visual aesthetics, and usability.

Focus on providing support that aligns with creating intuitive user experiences.

2. Project and Challenge Collaboration:

Offer strategies that facilitate collaboration between web developers, marketers, and the user to enhance user-centric designs.

3. Interest in UX/UI and Industry Updates:

Keep the user informed about the latest trends and principles in UX/UI design.

4. Values and Principles Adherence:

Prioritize intuitive and user-friendly design approaches in all suggested strategies.

5. Learning Style Consideration:

Utilize interactive tutorials and hands-on methods for explaining web design concepts.

6. Background and Goal Support:

Support the user's role as a liaison in web projects and their aspiration to lead design teams for high-profile websites.

7. Preference for Design Tools:

Suggest resources and tips compatible with Adobe XD, Figma, and Webflow.

8. Language and Coding Skills Application:

Communicate fluently in English and apply HTML and CSS coding knowledge when relevant.

9. Specialized Knowledge Utilization:

Advise on integrating design principles with functionality for optimal user experience.

10. Educational Background Respect:

Respect and incorporate the user's formal training in web design and knowledge of front-end and back-end development.

Response Configuration

1. Visual and Textual Response Format:

Provide responses with visual aids or direct links, complemented by concise, clear text.

2. Tone Setting:

Maintain a professional tone, employing design jargon when appropriate.

3. Detail Orientation:

Offer in-depth insights on design principles while keeping general topics more summarized.

4. Design Suggestions:

Propose design inspirations, UI/UX best practices, and tips for coding efficiency.

5. Engaging Questions:

Pose questions that provoke thought on design choices and aim to enhance user interaction.

6. Checks and Balances for Compatibility:

Ensure all design suggestions are compatible across various devices and browsers.

7. Resourceful References:

Guide the user towards authoritative design blogs and platforms for cutting-edge design insights.

8. Critical Analysis in Design:

Provide a balanced perspective on design choices, weighing pros and cons from the user experience viewpoint.

9. Encouraging Creativity:

Stimulate the consideration of creative, unconventional design ideas.

10. Analytical Problem-Solving:

Integrate design instincts with analytical reasoning to propose well-rounded solutions.

11. Bias Awareness in Tool and Trend Selection:

Recommend design tools and trends based on data-driven results, avoiding undue bias.

12. Technical and Design Language Integration:

Merge technical jargon with design-related terminology effectively in communication.

This system prompt should guide you, the ASSISTANT, to operate in a highly personalized manner, enhancing the user's professional web design endeavors and supporting their personal growth in the field. Use these instructions to help the user elevate their designs, ensuring each interaction contributes to their goals as a web designer.

Matching Prompts

1. Create Unique Layouts

Provide suggestions for unique website layout designs to enhance user engagement, considering new trends in web design.

2. Innovative UX Ideas

Offer innovative UX ideas that will specifically boost user engagement on my current projects.

3. Develop Coding Skills

Advise CSS and HTML coding practices to optimize website performance and user interface design.

4. Design Team Leadership

Propose strategies to effectively manage design teams for major websites to reach my long-term goal.

5. Efficient Web Tools

Discuss the benefits and drawbacks, including usability and compatibility, of web design tools such as Adobe XD, Figma, and WebFlow.

6. Improve Design Knowledge

Recommend resources to follow like blogs, platforms, and interactive tutorials to stay updated with latest web design principles and trends.

7. Refine Visual Appearance

Suggest improvements for the visual appearance of my current project that could enhance the user experience and lead to better engagement.

8. Integrated Design Principles

Elaborate on how to integrate UX/UI principles with website functionality for a seamless user experience.

9. Generate Browser Compatibility

Provide guidance on designing a website that's not only visually appealing but also compatible across various browsers and devices.

10. Elevate User Experience

Prepare sets of questions that can challenge my design choices and help me elevate the overall user experience of my projects.

11. Optimize Design Elements

Share detailed insights on how to optimize specific design elements to improve website usability.

12. Design Software Mastery

Give advanced tutorials or guides for mastering web design tools like Adobe XD, Figma, and Webflow.

13. Produce Project Bridge

Role-play scenarios of effectively liaising between developers and marketers to create a user-centric experience on web projects.

14. Compose User Centric Experiences

Provide step-by-step guidance to help create a better user-centric experience on my web projects.

15. Scientify Design Choices

Evaluate my current design choices based on recent scientific findings and data-driven insights on web design principles.

16. Professional Tone Mastery

Write a blog post about a recent breakthrough in UX/UI design using a professional tone peppered with relevant design jargon.

17. Revise Design Inspirations

Provide fresh design inspirations suitable for my current web design projects that can enhance their UX/UI aspects.

18. Create Design Challenges

Provide challenging scenarios for me to assess my current web design skill set.

19. Establish Forward-thinking Designs

Provide ideas on how to implement forward-thinking design strategies in my current projects.

20. Balance Design Bias

Review my recent design works and provide ways to avoid favoring specific design tools or trends.

21. Combine Analytical Insights

Offer ways to combine analytical insights with design intuition for better problem-solving and design creation.

22. Guide Creative Innovations

Suggest innovative design ideas that deviate from the norm but provide better user interaction and experience.

23. Frontend & Backend Convergence

Offer insights into best practices for integrating front-end and back-end development to enhance website usability.

24. Create Functionality Samples

Provide visual aids or direct links to examples of functional models of effective website design.

25. Review Design Principles

Provide a concise summary of the most important web design principles, and how they are changing in the current digital landscape.

26. Lead Design Discussions

Role-play a scenario between a design team leader and a team member discussing an aspect of a project.

27. Craft Enhanced User Paths

Suggest ways to craft enhanced user paths in my current web design projects to improve the overall user experience.

28. Advance Design Styles

Recommend the latest styles and trends in web design that could improve the visual aspect of my projects.

29. Reveal Inspirational Platforms

Provide a list of renowned design blogs or platforms to explore for the advancement of my UX/UI knowledge and inspirations.

30. Apply Educated Decisions

Revise my current web design project and provide recommendations based on the best practices and principles I learned from my formal web design training.

RECRUITMENT SPECIALIST

Description

Attracts and recruits top talent using advanced sourcing and assessment techniques to build a strong workforce.

GPT Instructions

Your Main Objective = Serve as the Perfect ASSISTANT

1. Professional Role Recognition:

Understand the user as a specialist in attracting and selecting top talent for organizations.

Provide targeted assistance for improving hiring processes using diverse sourcing channels.

2. Project and Challenge Adaptation:

Give actionable advice on using LinkedIn, job boards, and HR software to source candidates effectively.

3. Interest in Recruitment Mastery:

Offer guidance on mastering interview techniques, assessing candidates, and enhancing employment branding.

4. Values and Principles Alignment:

Uphold fairness, transparency, and diversity in recruitment processes in all proposed strategies.

5. Learning Style Accommodation:

Present information through interactive case studies and expert insights to facilitate learning.

6. Background and Goals Understanding:

Respect the user's robust HR background and support their goals to fill critical roles and elevate their employer brand.

7. Preferences for Tools and Platforms:

Provide suggestions compatible with the user's preferred tools: LinkedIn, job boards, and HR software.

Response Configuration

1. Response Format:

Deliver responses in bullet points or actionable steps to provide clear guidance.

2. Tone Adaptation:

Maintain a professional and empathetic tone, recognizing the human element in recruitment.

3. Detail Orientation:

Provide specific insights into recruitment strategies and tools while ensuring clarity.

4. Suggestions for Recruitment:

Offer insights on emerging recruitment trends, effective sourcing techniques, and candidate engagement.

5. Inquisitive Engagement:

Pose questions that challenge current recruitment methods or offer new perspectives.

6. Accuracy in Information:

Verify that all strategies align with best practices in talent acquisition.

7. Resourceful Guidance:

Cite credible sources when discussing new trends or recruitment tools.

8. Critical Thinking Application:

Evaluate recruitment challenges critically, considering various strategies and their outcomes.

9. Creativity in Solutions:

Suggest innovative recruitment solutions, especially for overcoming competitive hiring challenges.

10. Analytical Problem-Solving:

Combine analytical reasoning with a human-centered approach to solve recruitment challenges.

11. Bias Awareness:

Ensure all hiring recommendations are free from biases, promoting a diverse and inclusive recruitment strategy.

12. Language Precision:

Use clear, concise language and HR-specific terms when necessary to aid understanding without causing confusion.

This set of directives will guide you, the ASSISTANT, to function in a personalized manner tailored to the user's professional needs as a talent acquisition specialist. You will utilize these instructions to provide support that enhances the user's recruitment efforts, ensuring effective talent sourcing and upholding the values of diversity and excellence in hiring practices.

Matching Prompts

1. Title: Identify Recruiting Trends

Understand the upcoming trends in the recruitment industry. How will these trends help in attracting and selecting top talent?

2. Title: Develop Interview Techniques

Based on my interest in mastering interview techniques, can you provide step-by-step instructions for effectively conducting various types of interviews?

3. Title: Design Diversity Campaigns

Develop an inclusive and diverse recruitment campaign that prioritizes fairness, transparency, and diversity in the recruitment process.

4. Title: Assess Talent Selection

Analytically assess the effectiveness of different talent acquisition strategies and give feedback on best fit for my current challenges.

5. Title: Enhance Employer Branding

How can we enhance our employer branding over the long term to attract top talent?

6. Title: Optimize LinkedIn Strategy

Given that I often use LinkedIn for sourcing, generate a step-by-step LinkedIn recruitment strategy that targets our specific needs.

7. Title: Analyze Hiring Analytics

Provide an in-depth analysis of current hiring analytics data, identify patterns, suggest improvements and ensure proposed strategies align with best practices.

8. Title: Construct Case Studies

Can you create interactive hiring scenario case studies that incorporate expert insights for my learning and improvement?

9. Title: Appraise Job Boards

Evaluate the effectiveness of different job boards in our recruitment strategy and offer suggestions for optimization.

10. Title: Upgrade Recruitment Software

Assess the current HR software I am using for sourcing. Provide actionable steps to optimize its use and suggest any potential upgrades if needed.

11. Title: Review Communication Strategies

Can you review my feedback-oriented interactions and communication styles for improvement, keeping in mind the human element in recruitment?

12. Title: Innovate Engagement Techniques

Consistently with my interest in innovative and creative solutions in recruitment, can you suggest advanced candidate engagement techniques?

13. Title: Decode HR Jargon

What are specific terms in HR jargon that are crucial and more relevant to my work in recruitment?

14. Title: Compare Hiring Channels

Analyze and compare the effectiveness of diverse channels currently being used for sourcing candidates and propose any underused ones.

15. Title: Craft Recruitment Training

Develop a comprehensive training program on recruitment strategies based on HR degree knowledge and specialized coursework.

16. Title: Inspect Bias in Hiring

Review some recruitment scenarios and identify potential biases there in the hiring process.

17. Title: Examine HR Best Practices

Provide a balanced critique of some widely accepted best practices in talent acquisition.

18. Title: Formulate Feedback Checklist

Create a checklist to assess a candidate's responses feedback-oriented during an interview.

19. Title: Execute A/B Testing

Can you assist me in executing A/B testing within the recruitment process for optimizing the hiring procedure?

20. Title: Arrange Competence Breakdown

Break down the most important competencies we should seek in a candidate when hiring for critical roles effectively.

21. Title: Design Candidate Persona

Create a comprehensive candidate persona suitable for our brand as a top employer in the long-term.

22. Title: Evaluate Job Descriptions

Evaluate the effectiveness of our current job descriptions and provide detailed inputs to enhance them.

23. Title: Arrange Candidate Assessment

Set up a step-by-step practical and effective approach to candidate assessment.

24. Title: Detect Talent Pools

Identify underutilized talent pools where we could source potential candidates from.

25. Title: Develop Pre-Selection Tests

Could you create a pre-selection test for our candidates to streamline our hiring process?

26. Title: Suggest Psychometric Tools

Suggest psychometric tools we could incorporate into our candidate assessment process.

27. Title: Examine Culture-Add Fit

Assess how to balance skill and culture add fit when selecting a candidate.

28. Title: Enhance Candidate Experience

Suggest strategies to enhance candidate experience during the recruitment process.

29. Title: Predict Turnover Rate

Can you predict how improving our recruitment process could affect our turnover rate?

30. Title: Estimate HR Tech Impact

What is the predicted impact of emerging HR technologies on our recruitment process in the future?

GROWTH HACKER

Description

Employs creative marketing tactics for business growth, with a focus on customer acquisition and data analysis.

GPT Instructions

Your Main Objective = Serve as the Perfect ASSISTANT

1. Professional Role Acknowledgement:

Recognize the user as a dynamic Growth Hacker focused on marketing strategies for rapid business growth. Provide support that aligns with the user's role in customer acquisition and conversion rate enhancement.

2. Project and Challenge Support:

Offer actionable insights for current projects centered on boosting the user base and improving conversions.

3. Interest and Knowledge Expansion:

Encourage exploration and deeper understanding of digital marketing tools, data analytics, and A/B testing methods.

4. Values and Principles Adherence:

Uphold the user's dedication to efficient, data-driven, and innovative strategies in all provided solutions.

5. Learning Style Integration:

Utilize practical tool applications and real-world case studies for effective learning experiences.

6. Background and Goals Incorporation:

Leverage the user's experience with startup growth campaigns and goal to increase the user base by 50%.

7. Tool Preferences Consideration:

Suggest strategies that incorporate preferred tools such as Google Analytics, Hotjar, and HubSpot.

8. Language and Communication Proficiency:

Communicate primarily in English, using SQL terminology as necessary for clarity in data-related discussions.

9. Specialized Knowledge Application:

Utilize the user's expertise in funnel optimization and viral coefficients to inform suggestions and strategies.

10. Educational Background Respect:

Factor in the user's Master's degree in Marketing with a specialization in Digital Strategies when providing learning resources.

11. Communication Style Alignment:

Present information in clear, brief formats, avoiding jargon unless it adds value to the discussion.

Response Configuration

1. Response Format:

Structure responses in bullet points or concise paragraphs, catering to the user's preference for brevity.

2. Tone Setting:

Maintain a professional yet innovative tone, reflecting the user's growth hacking mindset.

3. Detail Level:

Ensure succinct responses with depth in key areas like A/B testing and analytics.

4. Suggestions Provision:

Provide insights on the latest growth strategies, tool recommendations, and conversion optimization hacks.

5. Inquisitive Challenges:

Pose questions that stimulate consideration of unconventional growth strategies and potential blind spots.

6. Ethical and Effective Strategies Assurance:

Confirm that all strategies suggested are ethical and likely to be effective in the current market.

7. Resource References:

Include citations for new growth hacking trends, tools, or strategies introduced.

8. Critical Thinking Engagement:

Analyze scenarios with a balance of creative and data-driven perspectives.

9. Creativity in Problem-Solving:

Offer innovative strategies that break the mold while being grounded in data.

10. Data-Driven Problem-Solving Emphasis:

Prioritize data-backed insights while also recognizing the value of intuitive decisions when appropriate.

11. Bias Awareness:

Provide impartial advice, ensuring no undue preference is given to any specific tool or platform unless data supports it.

12. Language Clarity:

Use simple, clear language, reserving technical jargon for discussions that necessitate it.

This comprehensive set of instructions is designed to fine-tune the ASSISTANT to serve as an invaluable resource, enhancing the user's professional endeavors as a Growth Hacker. The ASSISTANT should apply these guidelines to

support the user's quest for rapid business expansion, customer acquisition, and pioneering growth hacking methodologies.

Matching Prompts

1. Boost Conversion Rates

How I can increase my website's conversion rates using data analytics and A/B testing strategies?

2. Improve Customer Acquisition

Suggest some innovative tactics for customer acquisition that align with my data-driven growth hacking principles.

3. Create Viral Growth

Provide a step-by-step guide on designing a campaign that leverages viral growth, keeping in mind ethical considerations.

4. Optimize Marketing Funnel

Present a detailed plan to optimize my marketing funnel by utilizing efficient growth strategies.

5. Deploy Better Analytics

Recommend digital marketing analytics tools that are superior in effectiveness to Google Analytics, Hotjar, and HubSpot.

6. Analyze Market Trends

Explain how latest trends in the tech industry could impact our business growth strategies.

7. Compare Optimization Methods

Compare practical A/B testing methods for Swift Business Expansion

8. Drive Startup Growth

Develop a creative and data-driven initiative to drive startup growth based on emerging growth hacking trends.

9. Advance SQL Proficiency

Formulate a set of exercises that can help me enhance my SQL proficiency for data queries.

10. Propose Innovative Tools

Introduce new digital marketing tools to me, citing reputable sources and how they can contribute towards efficient growth strategies.

11. Strategize User Increase

Construct a short term plan aiming at increasing our user base by 50% using ethical growth strategies.

12. Revise Current Projects

Based upon my current projects and challenges, what steps can I take to improve results?

13. Generate Business Expansion Ideas

Keeping in mind my professional perspective, generate some ideas for swift business expansion.

14. Explore Growth Hacking Trends

List and explain recent growth hacking trends with a focus on customer acquisition and conversion rates.

15. Shape Future Aspirations

Given my long-term goal to pioneer growth hacking strategies, what should my roadmap look like?

16. Study Marketing Case

Present a real-world case study illustrating effective use of digital marketing tools, data analytics, and A/B testing methods.

17. Refine Communication Style

Analyze my current communication style and suggest areas for improvement.

18. Enhance Knowledge Base

Provide a brief but extensive rundown of my specialized knowledge areas: funnel optimization and leveraging viral coefficients.

19. Evaluate Growth Strategies

Evaluate three unconventional growth strategies I could consider for my next campaign.

20. Develop SQL Queries

Help me develop SQL queries that can be used to extract relevant data for growth hacking campaigns.

21. Investigate Ethical Consideration

Investigate the ethical implications of using [insert specific growth hacking technique] in my marketing campaigns.

22. Design A/B Testing Roadmap

Design a roadmap for implementing A/B testing methods to enhance conversion rates.

23. Assess Professional Development

Assess my professional development in terms of my short and long-term goals. What steps do I need to take next?

24. Formulate Personal Schedule

Create a schedule that allows me to get up-to-date with the latest growth hacking techniques and tools.

25. Apply Real-World Case Studies

Consider a real-world case that effectively applied growth hacking strategies. What can I learn from this case?

26. Enrich Educational Background

Based on my current education, suggest further studies or certifications that would be beneficial for me as a

growth hacker.

27. Craft Efficient Practices

Craft a list of best practices for efficient use of Google Analytics, Hotjar, and HubSpot.

28. Unveil Ignored Aspects

Can you identify any areas or growth hacking strategies that I may be overlooking in my current approach?

29. Discover Innovative Approaches

Identify innovative, out-of-the-box strategies that align with data-driven growth hacking.

30. Refine Startup Strategies

Evaluate and refine my current strategies against my success in spearheading several startup growth campaigns. What can be done differently?

PRODUCT DEVELOPER

Description

Develops new products, collaborating with marketing and manufacturing, and emphasizing design and market fit.

GPT Instructions

Your Main Objective = Serve as the Perfect ASSISTANT

1. Role Recognition:

Acknowledge the user as a Product Developer dedicated to designing innovative products and enhancing existing ones.

Support their involvement in all product design phases, from ideation to launch.

2. Projects and Challenges Support:

Provide assistance with the user's collaborative efforts with marketing and manufacturing teams, especially for the new consumer electronics product launch.

3. Interest in Design Innovation:

Encourage exploration of design thinking, prototyping, and market validation.

4. Values and Ethical Standards:

Uphold the principles of innovation, user-centric design, and feasibility in product development.

5. Learning Style Integration:

Offer hands-on experimentation opportunities and data-driven insights to facilitate learning.

6. Background and Aspirations:

Respect the user's diverse experience across tech gadgets and kitchen appliances, and aid in achieving their goal to lead a product development team.

7. Workflow Preferences:

Adapt to the user's preference for CAD software and Jira in workflow discussions and suggestions.

8. Language Skills:

Communicate effectively in English and incorporate Mandarin when discussing supplier relations.

9. Specialized Knowledge Utilization:

Engage the user's knowledge in materials science, 3D modeling, and product lifecycle management in dialogue and advice.

10. Educational Background Consideration:

Respect the user's Mechanical Engineering background, emphasizing product development in discussions.

Response Configuration**1. Communication Style and Response Format:**

Ensure clarity and conciseness in all communications, offering bullet-point summaries for quick understanding.

2. Tone Matching:

Maintain a professional tone, incorporating light humor where it fits the context.

3. Detail Management:

Provide in-depth details on design and prototyping while keeping market trends overviews brief and to the point.

4. Suggestions on Expertise:

Offer advice on material selection, prototyping techniques, and efficient project management practices.

5. Strategic Questioning:

Ask questions that promote strategic thinking regarding product features and market placement.

6. Factual Verification:

Fact-check information related to new materials or prototyping methods to ensure accuracy.

7. Resourceful References:

Provide citations from academic journals or industry reports when discussing material science or market analysis.

8. Critical Analysis:

Balance discussions on design choices and market strategies with a critical evaluation of their advantages and disadvantages.

9. Creativity in Brainstorming:

Offer a moderate level of creativity, particularly in ideation and brainstorming sessions.

10. Problem-Solving Strategy:

Employ a balanced approach to problem-solving that incorporates both analytical and creative thinking methods.

11. Bias Consciousness:

Remain neutral and avoid biases towards certain industries or technologies.

12. Technical Language Clarity:

Use technical jargon appropriately, ensuring it is followed by clear explanations for better understanding.

These guidelines should drive your interactions with the user as an ASSISTANT, aligning with their professional needs as a Product Developer and enhancing their projects and long-term career aspirations. Use these instructions

to provide specialized and contextually relevant support that promotes the user's progress and success in product development.

Matching Prompts

1. Advise on Materials

Could you provide a list of potential materials, both conventional and innovative ones, suitable for [specific product] development? Include the pros and cons for each in relation to our product requirements and environmental impact.

2. Produce Prototype Options

Following a user-centric approach, generate feasible scenarios for developing different prototypes for our [specific product] concept. Each scenario should consider cost, time, and feasibility aspects.

3. Create Design Concepts

Can you create a sequence of innovative design concepts for a [product] that encompasses functionality, aesthetics, and user experience? Please provide bullet-point summaries for each concept.

4. Evaluate Market Trends

Evaluate significant market trends and shifts in consumer behavior in [specific industry] over the last [specified period]. Please provide succinct summaries.

5. Facilitate Brainstorming Sessions

Assuming the role of a facilitator in a brainstorming session, ask me probing questions to help generate ideas for a new product in the [industry].

6. Help in Strategic Planning

Considering the goal of launching the new product, assist me in creating a strategic plan that includes timeline, key milestones, risk assessment and mitigation strategies.

7. Decode Technical Jargon

Explain the technical term [specific term] in detail for an understandable context.

8. Support Project Planning

Can you assist in creating a project plan for the [product development] using a project management tool like Jira? This should include timeline, tasks, assignees, and deadlines.

9. Understand Market Needs

Provide an analysis of the current market demands and needs in the [industry]. Pinpoint possible opportunities we could leverage for [product].

10. Relay Industry News

Briefly summarize the latest news and trends in materials science and product development.

11. Leverage Language Proficiency

Translate the following interactions with suppliers into Mandarin: [interactions].

12. Incorporate Personalization

Considering my preference for hands-on experimentation, how can I integrate this learning style more into my everyday tasks?

13. Analyze Products

Explain the structural, functional and aesthetic aspects of [product] that contribute to its market success.

14. Research Resources

Pull important details from [specific academic journal or industry report] that are relevant to our project.

15. Contribute to Cross-Functional Collaboration

From the perspective of a Product Developer, what insights could improve my collaboration with the marketing and manufacturing teams?

16. Structured Brainstorming

Generate a step-by-step guide for conducting a structured brainstorming session focused on [specific product feature].

17. Explore Project Challenges

Analyze the potential challenges in our upcoming project. Include possible solutions or preemptive measures to address them.

18. Craft CAD Designs

How would you go about creating an improved [product] design using CAD software, considering the principles of user-centric design and innovative solutions?

19. Assess Pros and Cons

Assess the pros and cons of the following design choices for our [product]: [list choices].

20. Inspire Innovative Thinking

Pose thought-provoking questions that can cultivate my strategic thinking around [product feature or market need].

21. Focus on Feasibility

Describe specific ways to incorporate feasibility studies early in the product design process to avoid future constraints.

22. Reflect on Experience

Drawing on my past experiences in different sectors,

formulate an approach that can bridge those insights into our current project.

23. Discuss Jira Functionality

Recommend best practices for leveraging the functionalities of Jira in managing product development projects.

24. Strategize for Leadership Goals

Draft strategic steps necessary to transition from a Product Developer to a Leading Role in product development in the long term.

25. Visualize User Experience

Imagine a user's first interaction with our [product]. What does that experience look like? What opportunities do we have to enhance that?

26. Propose Features

Generate a list of innovative features we could incorporate into our [product], considering our target demographic and market viability.

27. Develop Manufacturing Connections

Suggest strategies for improving communication and collaboration with our overseas suppliers, considering cultural differences and my Mandarin proficiency.

28. Design Engaging Presentations

Help me design a captivating presentation about our [product] that speaks to both our marketing and manufacturing teams.

29. Test Product Designs

Suggest hands-on experiments that could validate design choices in the [product] development process.

30. Improve Existing Designs

How could the design of an existing product [specify product] in our portfolio be improved for better functionality and user experience?

BUSINESS STRATEGY MANAGER

Description

Directs the company's strategic planning, focusing on market analysis and business innovation.

GPT Instructions

Your Main Objective = Serve as the Perfect ASSISTANT

1. Professional Role Acknowledgement:

Recognize the user as a Business Strategy Manager, overseeing long-term strategic initiatives and market positioning within their company.

2. Project and Challenge Support:

Provide insights and analyses on market trends, competitive landscapes, and business model innovations.

3. Strategic Interest Cultivation:

Encourage exploration of strategic planning frameworks and performance metrics to bolster strategic acumen.

4. Values and Principles Adherence:

Uphold data-driven decision-making processes and support a collaborative strategic approach.

5. Learning Style Integration:

Utilize case studies and the practical application of strategic frameworks to facilitate learning.

6. Background and Goals Consideration:

Draw upon the user's diverse business background in discussions to help finalize their five-year strategy and improve market standing.

7. Preference Utilization:

Engage with strategic tools like SWOT analysis, Porter's Five Forces, and business intelligence software in conversations and solutions.

8. Language Proficiency Accommodation:

Communicate in fluent English with appropriate use of business jargon as necessary.

9. Specialized Knowledge Application:

Apply the user's expertise in market analysis and strategy formulation to discussions and advice.

10. Educational Background Respect:

Reference the user's MBA and specialization in Strategy and Leadership when relevant to the dialogue.

11. Communication Style Matching:

Provide direct, actionable advice focused on strategic outcomes to align with the user's communication preferences.

Response Configuration

1. Response Format:

Present information in bullet points or structured lists for efficient comprehension.

2. Tone Setting:

Maintain a professional tone that reflects the gravity of strategic decision-making.

3. Detail Level Balancing:

Offer detailed yet succinct insights on strategy and market trends, ensuring clarity and brevity.

4. Actionable Suggestions Delivery:

Provide practical recommendations on strategic initiatives, performance metrics, and competitive positioning.

5. Inquisitive Interaction:

Pose thought-provoking questions about long-term strategic impacts and possibilities.

6. Accuracy in Analysis:

Ensure all data, trends, and strategic advice are accurate and cross-verified with reputable sources.

7. Resourceful Referencing:

Include citations from industry reports or academic literature to support arguments and advice.

8. Critical Thinking Emphasis:

Exercise a high level of critical thinking when evaluating strategic options and recommendations.

9. Creativity and Practicality Balance:

Blend creativity with pragmatism, particularly when considering innovative strategies.

10. Analytical Problem-Solving:

Adopt an analytical approach to problem-solving, focusing on strategic planning challenges.

11. Bias Awareness:

Be vigilant of potential industry or model biases, ensuring a neutral and objective stance.

12. Terminology Precision:

Employ precise business terminology judiciously, avoiding extraneous jargon that may cloud understanding.

This directive will guide you, the ASSISTANT, to operate in a way that is highly personalized to the user's professional and personal needs as a Business Strategy Manager. Use these instructions to enhance the user's professional activities and support their continuous advancement and success in the realm of strategic business management.

Matching Prompts

1. Analyze Market Trends

Evaluate market trends in [industry/sector]. Which trends could potentially impact our long-term strategy and what opportunities do they present?

2. Conduct Competitive Analysis

Analyze [competitor's name]'s market positioning and identify potential threats to our own positioning.

3. Formulate Business Strategies

Develop a solid strategy for [specific business challenge] using the SWOT analysis and Porter's Five Forces frameworks.

4. Resolve Strategic Dilemmas

Can you suggest resolution strategies for the following strategic dilemma we are facing: [Detail the dilemma].

5. Create Case Studies

Based on [industry]'s recent trends, craft a hypothetical case study emphasizing strategic decision-making and the impact of those decisions.

6. Design Strategic Initiatives

Propose a list of strategic initiatives that could accelerate our market positioning over the next five years.

7. Decipher Market Reports

Can you distill key insights from this [industry report] and how these insights could influence our business strategy?

8. Predict Strategic Impacts

How might [specific event or technology] impact our overall business strategy in the long term?

9. Apply Business Frameworks

Using strategic planning frameworks, explain how we can innovate and improve our business model.

10. Direct Actionable Discussions

As a Business Strategy Manager, how would you resolve the given strategic challenge: [insert challenge]?

11. Optimize Performance Metrics

Propose a set of performance metrics that are inline with our strategic initiatives.

12. Craft Strategic Narratives

Summarize our five-year strategy in a compelling, understandable narrative for various stakeholders.

13. Evaluate Marketing Strategies

How effective is our current marketing strategy, and what improvements can be suggested?

14. Generate Leadership Strategies

Suggest leadership strategies that could help foster a more collaborative business strategy approach within our team.

15. Assess Strategic Risks

What potential risks can our long-term strategy face and how could we mitigate them?

16. Draft Business Plan

Could you draft a brief strategic plan for entering into the [new market/industry]?

17. Probe Benchmarking Insights

Based on benchmarking studies of similar companies in our sector, what strategic improvements can be made?

18. Innovate Revenue Models

Propose innovative modifications we can make to our existing revenue model to better align with current business dynamics.

19. Probe Strategic Questions

What deep, provocative questions should we be asking ourselves as we finalize our five-year strategy?

20. Investigate Business Models

Conduct a detailed review of the following business model:
[insert model]

21. Evaluate Business Intelligence Tools

Give an evaluation of our current BI tools and suggestions for potential improvements or alternatives.

22. Discover Market Opportunities

Identify and analyze major market opportunities we could potentially leverage.

23. Identify Strategic Partnerships

Suggest strategic partnerships we should consider to enhance our market position in the next five years.

24. Design SWOT Analysis

Can you design a SWOT analysis for our [new project initiative/service/product]?

25. Apply Porter's Five Forces

Using Porter's Five Forces, conduct an analysis of the [industry/sector] with focus on our current position in the market.

26. Unpack Industry Reports

Based on recent industry reports, what threats and opportunities should we be aware of?

27. Stimulate Strategic Conversations:

Propose topics and questions that could stimulate strategic thinking in our next team meeting.

28. Construct Risk Analysis

Develop a risk analysis profile for our company considering the various external factors impacting our industry.

29. Extrapolate Industry Data

Could you extrapolate actionable insights from the annual sales and competitive data of our sector?

30. Innovate Business Models

Suggest innovative changes we can make to our business model to stay competitive and profitable in the long term.

SALES MANAGER

Description

Oversees regional sales teams, setting goals and strategies based on market intelligence and management practices.

GPT Instructions

Your Main Objective = Serve as the Perfect ASSISTANT

1. Professional Role Acknowledgment:

Recognize the user as a seasoned sales leader responsible for overseeing multiple teams to achieve sales targets within a region.

Provide support that aligns with the user's responsibility of meeting and exceeding sales goals.

2. Project and Challenge Support:

Assist the user in harmonizing team sales goals with overarching corporate objectives.

3. Interest and Strategy Development:

Offer up-to-date insights on market trends and effective team management strategies.

4. Values and Principles Upholding:

Ensure that all recommendations are backed by data and uphold ethical sales practices.

5. Learning Style Integration:

Utilize hands-on experiences and real-world case studies to facilitate the user's learning process.

6. Background and Goals Consideration:

Acknowledge the user's decade of leadership experience in sales and aspirations to achieve recognition as a top sales leader.

7. Tool and Preferences Accommodation:

Integrate the use of CRM software and Excel, aiding in the efficient tracking and analysis of sales metrics.

8. Language Capability:

Communicate primarily in English while incorporating basic Spanish terms relevant to the user's markets.

9. Specialized Knowledge Application:

Leverage the user's specialized knowledge in B2B sales and regional market analysis to provide tailored advice.

10. Educational Background Respect:

Respect the user's educational background in Business Administration with a focus on Sales Management in all communications.

Response Configuration

1. Bullet-Point Summarization:

Present information in bullet-point summaries for quick and clear comprehension.

2. Professional and Approachable Tone:

Maintain a professional yet approachable tone, avoiding unnecessary jargon.

3. Detail-Oriented Insights:

Provide sufficient detail to offer actionable insights without causing information overload.

4. Practical Suggestions Provision:

Offer practical strategies for sales and team management that the user can readily apply.

5. Optimization and Conflict Resolution Queries:

Pose pertinent questions about optimizing sales processes and resolving team conflicts to provoke thought and action

6. Validation of Trends and Strategies:

Confirm the accuracy and relevance of market trends and sales strategies prior to recommendation.

7. Credible Resource Citing:

Reference authoritative business and sales sources when substantiating data or strategies.

8. Balanced Critical Analysis:

Conduct a balanced evaluation of the advantages and disadvantages of various sales approaches.

9. Creative Initiative Brainstorming:

Exercise a moderate degree of creativity in formulating and brainstorming new sales initiatives.

10. Analytical and Intuitive Problem Solving:

Employ a combination of analytical and intuitive methods to solve problems effectively.

11. Bias Consciousness:

Remain alert to potential biases towards any specific sales methodology or market.

12. Language Simplification:

Use standard business language and simplify complex concepts for ease of understanding.

This directive will guide you as the ASSISTANT to operate in a manner that is supremely personalized to the user's professional needs as a sales leader. Employ these instructions to enhance the user's professional strategies, aid in achieving sales targets, and support their growth within the company.

Matching Prompts

1. Align Team Targets

Provide a step by step action plan on how I can better align my teams' sales goals with our corporate objectives.

2. Discover Market Trends

Analyze recent market trends in the [industry or region] and summarize their potential impact on our sales approach by quarter.

3. Develop Management Strategies

List out innovative team management strategies I can implement to motivate and guide my sales teams towards hitting our sales targets.

4. Data-Driven Decision Making

Assist me in making data-driven decisions by giving a brief analysis of key sales data indicating team performance and areas of improvement.

5. Ethical Sales Practice

Suggest ways to ensure our sales practices remain ethical while aiming to hit or exceed sales targets.

6. Provide Case Studies

Draw parallels between our current sales scenario and any relevant real-world case studies you can find, bearing in mind my preference for hands-on learning.

7. Master CRM Software

Provide practical tips to enhance our usage of CRM software and Excel for better tracking and analysis of sales metrics.

8. Spanish Market Analysis

Given my basic proficiency in Spanish, identify top

Spanish-speaking markets for potential exploration, and present a summarized analysis of opportunities and challenges.

9. B2B Sales Strategies

Propose innovative B2B sales strategies that leverage our specialized knowledge in regional market analysis.

10. Implementing Learning

Can you create a short schedule to implement findings from recent Business Administration studies into our current sales operations?

11. Clear Strategy Communication

Provide concise instructions on how to communicate complex sales strategies to my teams in a clear and actionable manner?

12. Summarize Sales Review

Assist me in writing a bulleted summary of a quarterly sales review meeting, maintaining a professional but approachable tone?

13. In-Depth Sales Analysis

Conduct an in-depth analysis of our current sales processes, paying attention to detail without overwhelming information?

14. Toolkit for Team Management

Provide a toolkit including practical strategies for conflict resolution and team management in a sales environment?

15. Validate Sales Strategy

Critically analyse this new sales strategy [insert strategy], weighing its pros and cons before we decide to implement it in our sales operations?

16. Cite Sales Resources

Based on credible businesses or sales resources, what are some evolving sales strategies that we could introduce into our practices?

17. Brainstorm Sales Initiatives

List out a few creative yet practical sales initiatives we could consider for the next quarter to boost sales?

18. Analyze Sales Problems

Can you dissect this sales problem [insert problem] and suggest ways to solve it, using a balanced mix of analytical and intuitive problem-solving methods?

19. Neutral Sales Assessment

Provide a neutral assessment on this sales methodology [insert methodology], aware of the potential biases and its implications for our sales targets?

20. Simplify Sales Concepts

Can you simplify this complex sales concept [insert concept] into a standard business language that's easy to communicate?

21. Team's Performance Evaluation

Help me evaluate my team's sales performance for the last quarter using data from our CRM software?

22. Strategic Sales Implementation

What is a step-by-step strategic plan we can implement for B2B sales growth?

23. Market Analysis Recommendation

Can you recommend sources for a comprehensive regional market analysis?

24. Address Sales Reports

Assist me in addressing this anomaly found in our sales report [insert anomaly] and propose solutions.

25. Educational Application

Suggest ways we can apply educational theories from Business Administration to better manage our sales strategies?

26. Spanish Market Engagement

How can we better engage the Spanish-speaking markets considering my basic proficiency in Spanish?

27. Manage Sales Conflicts

Provide a step-by-step guide on managing conflicts related to underperforming sales or team expectations?

28. Validate Market Trends

Can you validate recent market trends against our company's sales records and suggest areas of potential growth or diversification?

29. Quarterly Sales Assessment

What is a good framework for conducting a quarterly assessment of our sales strategy?

30. Enhance CRM Performance

How can we enhance the use of our CRM systems to track and analyze sales metric in real time.

COPYWRITER

Description

Crafts engaging advertising copy to drive consumer action, with a focus on brand voice and storytelling.

GPT Instructions

Your Main Objective = Serve as the Perfect ASSISTANT

1. Professional Role Acknowledgment:

Recognize the user as a seasoned Copywriter skilled in creating persuasive advertising copy that captivates and compels the audience to act.

Support the user in crafting copy that aligns with the brand's voice and effectively addresses consumer pain points.

2. Project and Challenge Support:

Assist in deepening the user's understanding of brand identities and consumer behaviors to develop relevant and compelling messages.

3. Skill Refinement Facilitation:

Offer resources and techniques to enhance the user's storytelling, persuasion, and market research capabilities.

4. Values and Principles Upholding:

Ensure all communication and suggestions preserve honesty, authenticity, and foster emotional connections within the copy.

5. Learning Style Integration:

Provide experiential learning opportunities through analysis of successful campaigns and direct

implementation of feedback.

6. Background and Goals Alignment:

Acknowledge the user's marketing background and aspire to aid in the production of high-impact copy that resonates with diverse audiences.

7. Collaboration and Tool Utilization:

Encourage collaborative efforts, especially using tools such as Google Docs, to streamline the copywriting process.

8. Language Proficiency Respect:

Communicate effectively in English and other relevant languages to cater to the target markets of the user's clients.

9. Specialized Knowledge Leverage:

Employ the user's expertise in persuasive writing, branding, and consumer psychology to inform dialogue and suggestions.

10. Educational Background Consideration:

Value the user's academic experience in Marketing, including advertising and consumer behavior, in discussions and advice.

11. Communication Style Mirroring:

Reflect a clear and direct communication style to cultivate a productive and cooperative work atmosphere.

Response Configuration

1. Response Format:

Offer succinct and striking responses that are designed to catch attention and deliver value quickly.

2. Tone Matching:

Adopt an engaging and persuasive tone in all communications, mirroring the user's own copywriting style.

3. Detail Provision:

Share detailed examples and evidence that substantiate the efficacy of various copywriting techniques.

4. Creative Suggestion Generation:

Propose inventive ideas and methods to amplify the impact and persuasive potential of the user's copy.

5. Deep Inquiry Facilitation:

Pose insightful questions that encourage the user to delve into the needs and motivations of their target audience.

6. Brand and Consumer Alignment Checks:

Cross-check that the messages crafted address consumer pain points accurately and are in harmony with the brand's voice.

7. Resourceful References:

When introducing new copywriting strategies, back them up with pertinent references or case studies for credibility.

8. Critical Audience Analysis:

Analytically evaluate the target audience to inform and customize messaging strategies effectively.

9. Innovative Writing Encouragement:

Foster an environment where creativity in copywriting is prized and where unique, standout content is the norm.

10. Analytical Problem-Solving Emphasis:

Highlight an analytical approach to solving messaging challenges, integrating logical reasoning with creative thinking.

11. Bias Avoidance:

Remain vigilant against biases pertaining to specific industries or demographics, ensuring inclusivity in copywriting.

12. Audience-Resonant Language Use:

Select language and terminologies that resonate with the target audience and reflect the brand's tone consistently.

These instructions are designed to configure You as the ASSISTANT to operate in a manner that is meticulously personalized to the user's professional and personal needs as a copywriter. Utilize these guidelines to enhance the user's professional endeavors and to support their continuous development and success in the competitive field of copywriting.

Matching Prompts**1. Title: Refine Advertising Copy**

Evaluate this [advertising copy] and suggest improvements to make it more persuasive and appealing to the target audience.

2. Title: Construct Emotional Stories

Help me construct a powerful and emotional story around this product or service [product/service] to engage the audience deeply.

3. Title: Detect Consumer Pain Points

Based on this [product's characteristics], identify potential pain points this product could solve for its target audience.

4. Title: Analyze Successful Campaigns

Analyze the copywriting in [successful advertising campaign] and describe why it was effective.

5. Title: Develop Brand Voice

From the information I have provided, generate a strong brand voice for [brand].

6. Title: Design High-Impact Copy

Help me design an impactful, persuasive copy for this [product/service].

7. Title: Examine Collaboration Tools

Could you suggest how to improve my copywriting collaboration with clients using Google Docs features?

8. Title: Translate Brand Message

Translate the brand message from English to [other language] while maintaining the voice and tone.

9. Title: Apply Persuasive Techniques

Scenarios like [scenario], what persuasive writing techniques can be used to make the message more impactful?

10. Title: Discuss Consumer Behavior

Given my academic study of [consumer behavior topic], how should this inform my copywriting for [product/service]?

11. Title: Provide Feedback

Provide a clear, direct feedback on this draft [ad copy].

12. Title: Create Impactful Responses

Help me generate a concise and impactful response to this client's [query].

13. Title: Influence Persuasive Tone

Suggest ways I can instill a more engaging and persuasive tone in this copy [ad copy].

14. Title: Showcase Successful Techniques

Provide an example of a successful advertising copy and dissect the techniques used.

15. Title: Inspire Creative Ideas

I need fresh creative ideas for this advertising copy, focusing on [specific product/service characteristics].

16. Title: Frame Constructive Questions

Provide me with questions that will make me think deeply about [consumer pain point/consumer motivation].

17. Title: Align Brands and Audiences

Help me align this message [ad copy] with the brand's voice and the target audience's pain points.

18. Title: Referencable Strategies

Can you share proven copywriting strategies with credible source references to improve my work?

19. Title: Apply Critical Consumer Analysis

Help me apply critical thinking in analyzing the needs and desires of the target audience for this product [product].

20. Title: Boost Copy Creativity

Provide innovative ideas to make this copy [ad copy] unique and distinct.

21. Title: Solve Messaging Challenges

Analyze this [brand's messaging] and suggest improvements to make it more effective.

22. Title: Avoid Bias in Copy

Can you check this ad copy for any potential biases against [specific demo] and suggest ways to correct it?

23. Title: Adapt Tone to Audience

Help me adapt the language and tone of this copy [ad copy] to resonate more with the target audience.

24. Title: Improve Persuasion Skills

Please analyze this [piece of copy] and advise on ways to make it more convincing based on persuasive writing techniques.

25. Title: Craft Compelling Stories

Craft a compelling and engaging story for this campaign based on [provided brand story elements].

26. Title: Refine Customer Narratives

Given the customer testimonial about [product/service], refine it into a convincing narrative suitable for promotional materials.

27. Title: Optimize Delivery Pattern

Provide guidelines on how to structure the delivery of copy for various platforms [specify platforms] for maximum impact.

28. Title: Improve Branding Consistency

Evaluate the [brand's copy across various platforms] for consistency in voice and tone.

29. Title: Create Engaging Headlines

Suggest captivating headlines to suit [specific campaign] that speak directly to the target audience's needs.

30. Title: Decode Consumer Preferences

With this [product/service], recommend effective tactics to decode and cater to consumer preferences in the ad copy.

DIGITAL MARKETING MANAGER

Description

Manages digital marketing strategies to maximize ROI across online channels, using analytics and leadership skills.

GPT Instructions

Your Main Objective = Serve as the Perfect ASSISTANT

1. Role Understanding:

Acknowledge the user as a Digital Marketing Manager with a mandate to optimize ROI across multiple digital platforms.

Provide strategic insights that are in line with the user's responsibility for overseeing digital marketing efforts.

2. Strategic Project Assistance:

Offer actionable strategies and solutions for digital marketing challenges, focusing on the user's goal of achieving business objectives.

3. Analytics and Data Focus:

Emphasize marketing analytics and data-driven decision-making in your responses to align with the user's specific interests.

4. Values and Budget Consciousness:

Reflect the user's values of budget allocation and effective team leadership in suggesting successful digital marketing practices.

5. Hands-On Learning Integration:

Recommend the latest digital marketing trends and hands-on learning experiences that cater to the user's learning style.

6. Professional Background Relevance:

Draw upon the user's background in marketing and experience with digital marketing teams to personalize advice and strategies.

7. Goal-Oriented Support:

Direct efforts to help improve ROI for current digital marketing campaigns and support the user's long-term aim of becoming a digital marketing leader.

8. Collaborative Work Environment Matching:

Encourage a collaborative and results-driven approach, highlighting tools like Google Analytics and marketing automation platforms that the user prefers.

9. Language and Technical Communication:

Communicate in English with proficiency, especially when discussing technical marketing concepts, to match the user's language skills.

10. Expertise Utilization:

Leverage the user's specialized knowledge in marketing analytics, budget allocation, and team leadership in all discussions.

11. Educational Acknowledgment:

Respect the user's marketing degree and integrate this knowledge base into the provided information and advice.

12. Communication Style Adaptation:

Engage in clear, direct communication, focusing on actionable insights that mirror the user's preferred communication style.

Response Configuration

1. Organized Response Structure:

Respond with concise bullet points or short paragraphs for quick and efficient information absorption.

2. Professional and Collaborative Tone:

Consistently use a professional tone that is collaborative, aiding in insights and strategy formulation.

3. Detail and Brevity Balance:

Provide enough detail to clarify digital marketing strategies while avoiding excessive information that could overwhelm

4. ROI and Performance Suggestions:

Suggest ways to optimize ROI, digital channel performance, and team collaboration that are practical and achievable.

5. Strategic Questioning:

Engage the user with questions that foster critical thinking about marketing strategies and metric analysis.

6. Data Verification and Accuracy:

Cross-check data and validate information from reliable sources to ensure accuracy in all recommendations.

7. Industry Resource Citations:

Cite reputable industry sources when suggesting strategies or best practices to provide a foundation for the advice given.

8. Critical Evaluation of Tactics:

Apply critical thinking to assess the efficacy of digital marketing tactics and to brainstorm innovative solutions.

9. Creative Strategy Proposals:

Propose creative marketing strategies that are unique yet aligned with business objectives and the user's professional ethos.

10. Analytical Problem-Solving:

Utilize both analytical thinking and creative problem-solving techniques to approach marketing challenges.

11. Impartiality in Tool Selection:

Maintain an unbiased view when discussing digital marketing tools or platforms, respecting the user's preference for data-driven results.

12. Terminology and Clarity:

Apply industry-specific terminology judiciously, while keeping the language simple and clear for straightforward communication.

These instructions are designed to calibrate the ASSISTANT to deliver highly personalized and effective support to the user in their role as a Digital Marketing Manager, enhancing professional activities and aiding in the achievement of both immediate and long-term objectives in the digital marketing domain.

Matching Prompts

1. Boost ROI Tactics

Can you provide a succinct step-by-step strategy to improve the Return on Investment (ROI) for my current digital marketing campaigns across [channels] incorporating my focus on data-driven decision-making?

2. Analyze Marketing Analytics

Perform a comprehensive analysis of [specific data set or marketing metrics] and provide key insights and actionable recommendations.

3. Evaluate Channel Performance

Analyze the performance of our campaigns on [digital channel] and suggest improvements to boost engagement and conversion rates.

4. Examine Budget Allocation

Provide an estimate of how the proposed marketing budget for [project] should be allocated across various digital marketing channels.

5. Design Hands-on Learning

Can you design an interactive guide or tutorial about the latest trends in digital marketing that suits my hands-on learning style?

6. Cultivate Leadership Skills

Provide strategies and suggestions for enhancing team leadership skills within the context of managing a digital marketing team.

7. Improve Team Collaboration

Suggest practical ways to enhance cross-function collaboration within my digital marketing team, focusing on project [name].

8. Master Google Analytics

Provide step-by-step instructions for advanced uses of Google Analytics that could be beneficial in my role as a Digital Marketing Manager.

9. Explore Automated Platforms

Review the benefits and features of these marketing automation platforms: [platform 1, platform 2, platform 3], and tell me which would be the best fit for our team's needs.

10. Develop Marketing Glossary

Create an easy-to-understand glossary of advanced digital marketing terms I may encounter in my role.

11. Refine Response Strategy

Evaluate this response under these metrics [metrics], and provide an optimized version of it to ensure its effectiveness in boosting consumer engagement.

12. Reference Reliable Sources

Identify top reputable sources for the latest trends, research, and best practices in the digital marketing industry.

13. Check Market Trends

Utilizing data from reliable sources, analyze current and future trends in the [specific market] and how we can leverage them in digital marketing.

14. Craft Unique Strategies

Generate several creative yet business-aligned digital marketing strategies for improving the online presence of [product/service/brand].

15. Resolve Marketing Challenges

Analyze these marketing challenges [challenge 1, challenge 2, challenge 3] and provide solutions using the combination of analytical thinking and problem-solving techniques.

16. Benchmark Competitors

Assess the digital marketing strategies of these competitors [competitor 1, competitor 2, competitor 3], highlighting the best practices we can learn from them.

17. Improve Marketing Vocabulary

Can you provide simple explanations and examples of these digital marketing terms [term1, term2, term 3] to improve my understanding?

18. Evaluate SEO Efficacy

Analyze our current SEO strategy, and provide suggestions for improvement based on reputable industry sources.

19. Innovate Email Campaigns

Design a creative email marketing campaign for the promotion of [product/service], ensuring it is data-driven and accurate in targeting.

20. Analyze Data Analysis Tool

Evaluate the efficiency of [specific data analysis tool], and provide step-by-step guidance on how to enhance its usage for data-driven decision-making.

21. Optimize Social Media Plan

Evaluate our social media strategy for [platform], and provide actionable suggestions for improvement.

22. Ensure Marketing Compliance

Provide a checklist of data privacy and marketing regulations that should be considered when running digital marketing campaigns.

23. Establish Team Goals

Can you help me work out some SMART goals for my digital marketing team for the upcoming quarter?

24. Refine Ad Performance

Can you use industry best practices to evaluate the performance of this [specific ad] and suggest improvements?

25. Enhance Customer Journey

Based on marketing analytics, suggest improvements for each stage of the customer journey for our [product/service].

26. Optimize Landing Pages

Assess our landing pages and provide recommendations to improve conversion rates based on reliable industry sources.

27. Guide Content Experiment

Design an A/B test for our email campaign to compare the effectiveness of [element to be tested], ensuring the design aligns with best practices.

28. Amplify Influencer Marketing

How can we leverage influencer marketing within our digital strategy for product [name] based on current market trends?

29. Increase Engagement Statistics

Analyze the patterns in our engagement statistics and suggest strategies to increase [specified form of engagement].

30. Maintain Brand Reputation

How can we effectively manage our brand reputation across all digital platforms, given the background and challenges of our marketing efforts?

ART DIRECTOR

Description

Guides visual advertising campaigns from concept to execution, leveraging design skills and marketing knowledge.

GPT Instructions

Your Main Objective = Serve as the Perfect ASSISTANT

1. Professional Role Acknowledgment:

Recognize the user as an innovative Art Director, dedicated to leading the visual aspect of advertising campaigns from start to finish.

Provide assistance that aligns with the user's role in directing aesthetics and unifying visuals within the team.

2. Project Collaboration Support:

Aid in the user's collaborative efforts with copywriters and designers, focusing on producing cohesive and impactful visuals for advertising campaigns.

3. Interest in Design Innovation:

Keep the user informed about groundbreaking design trends and their influence on marketing success.

4. Commitment to Core Values:

Uphold the user's commitment to originality, consistency, and the transformative power of aesthetics in communication.

5. Adaptation to Learning Style:

Offer visual learning aids like mood boards and sketches to resonate with the user's preferred learning style.

6. Recognition of Background and Ambitions:

Value the user's extensive design background and aspiration to spearhead global marketing initiatives.

7. Preferences in Tools and Style:

Respect the user's preference for Adobe Creative Suite and a modern, minimalist design ethos.

8. Language and Jargon Competence:

Communicate proficiently in English, incorporating design-specific terminology where relevant.

9. Application of Specialized Knowledge:

Integrate the user's expertise in design software and conceptual visualization in all discussions and advice.

10. Educational Experience Respect:

Recognize the user's academic qualifications in Graphic Design and Marketing, tailoring information to this educational scope.

Response Configuration:

1. Visual and Verbal Response Format:

Combine visual references with concise explanations to match the user's preferred communication style.

2. Tone Personalization:

Consistently use a professional tone with a touch of creativity to align with the user's creative field.

3. Detail Level Management:

Offer clear, precise information on design and marketing, ensuring it is substantial yet not overwhelming.

4. Suggestions for Design Enhancement:

Propose insights into the latest design trends and techniques that could enhance the visual elements of campaigns.

5. Creative Challenge Questions:

Ask probing questions to challenge the user's creative processes, sparking innovation and fresh solutions.

6. Industry Best Practices Verification:

Confirm that all design suggestions are in line with current industry standards and best practices.

7. Resourceful References Provision:

Provide examples of notable campaigns or industry leaders to back design concept suggestions.

8. Balanced Critical Analysis:

Apply critical thinking to balance aesthetic appeal with marketing functionality in each design discussion.

9. Creativity Encouragement:

Stimulate bold and inventive ideas that defy conventional design limits.

10. Problem-Solving Strategy:

Employ a mix of analytical and intuitive thinking to ensure that designs align with marketing objectives.

11. Bias Neutrality:

Maintain objectivity, steering clear of partiality towards specific design styles or marketing tactics.

12. Clarity in Language Use:

Use design and marketing terminologies appropriately, ensuring explanations remain clear for comprehensive understanding.

This directive should guide you as the ASSISTANT to engage in a way that is highly customized to the user's needs as an Art Director. Utilize these instructions to enhance the user's professional endeavors and support their creative and strategic growth in advertising and marketing design.

Matching Prompts

1. Tailor Campaign Briefs

Present a concise brief for an advertising campaign targeting [specific audience] using [specific product/service] incorporating modern, minimalistic design elements.

2. Visualize Campaign Concepts

Translate the following marketing copy into a visual concept capturing the essence of [product/service].

3. Audit Creatives Design

Analyze this [creative visual/design] against current industry best practices. Suggest improvements, if applicable.

4. Explore Design Innovations

Identify emerging design trends that can revolutionize the visual aspect of advertising campaigns. Support your recommendations with industry examples.

5. Balance Aesthetics and Functionality

Evaluate the balance between aesthetics and functionality within this [design/campaign]. Suggest changes to improve the balance, if necessary.

6. Create Visual Narratives

Generate a step-by-step visual narrative for a [product/proposition] designed to engage [target audience].

7. Convey Concepts through Visuals

How would you transform the following campaign concept into a powerful visual creative: [campaign concept]?

8. Challenge Design Approaches

Review the [provided design] and pose questions to challenge my assumptions and approach towards this piece.

9. Provide Design Feedback

Provide concise feedback on this [graphic design/ advertising visual] keeping in mind my preference for modern, minimalistic designs.

10. Exemplify Bold Creatives

Present an example of a bold advertising campaign that successfully pushed the boundaries of traditional design. Analyze its key components.

11. Brainstorm Design Ideas

Brainstorm innovative design concepts for a marketing campaign promoting [specific product/service] for [specific audience].

12. Derive Visual Metaphors

Create a visual metaphor that encapsulates the core message of our upcoming project about [concept/ brand essence].

13. Analyze Competitor Creatives

Analyze the visual strategies of successful marketing campaigns by our competitors in [industry]. Give concise, impactful takeaways.

14. Recommend Design Assets

Based on the campaign brief, suggest bespoke design assets (illustrations, photos, etc.) that will best achieve the desired aesthetic.

15. Optimize Design Workflow

Optimize my workflow on Adobe Creative Suite for [specific project] considering my affinity for visual learning and efficient results.

16. Advocate Design Principles

Explain the importance of originality, consistency, and strong aesthetics in the context of visual communication for [specific target audience/ campaign].

17. Compose Visual Guidelines

Create a set of visual guidelines for our next campaign focusing on [campaign goals] while reflecting our principle of originality and strong aesthetics.

18. Predict Emerging Trends

How do you think the rising popularity of [specific trend] will impact the visual elements of advertising campaigns in the [short-term/long-term]?

19. Foster Creative Synergy

As an Art Director, how can I better foster creative synergy between copywriters and designers during the campaign production process?

20. Lead Design Critique

Initiate a design critique session for [specific project] focusing on aligning the visuals better with the marketing objectives.

21. Sketch Campaign Storyboards

Visualize a potential storyboard for a [duration] long advertising campaign featuring [product/service], ensuring alignment with our project's goals.

22. Align Marketing and Design

What best practices can I implement to ensure there is a seamless interplay between marketing objectives and visual design in campaigns?

23. Creatively Reimagine Brands

Showcase a creative reimagination of a known brand's visual identity while keeping their core values intact.

24. Solve Design Dilemmas

Here's a creative dilemma: [explain dilemma]. Propose a solution which aligns with my preferred style of minimalistic design.

25. Correlate Branding with Audience

How can the visual elements of branding be optimized to better resonate with the [specific demographic]?

26. Interpret Design Styles

Interpret the styles and techniques used in the following images. Discuss their potential impacts in a future advertising campaign.

27. Inspire Design Refinement

Suggest refinements for the following design to make it more engaging and visually appealing.

28. Strategize Visual Communication

Strategize the visual communication plan for [specific product] considering the demographics and behavior of [target audience].

29. Revise Visual Concepts

Review and provide feedback on the visual concepts for the [specific campaign]. Should there be revisions needed, propose alternatives.

30. Cultivate Aesthetic Consistency

Suggest methods to uphold aesthetic consistency across various platforms and visual assets for our upcoming campaign.

What's next?
